

Sand Coulee, Montana -- Coal lands
JJH to C. A. Broadwater, June 6, 1887

Re taking bond on 640 acres of Sand Coulee coal lands. Has always considered Sand Coulee field faulty until a visit to the mine at Belt last fall showed its value, so close to Great Falls. Asks Broadwater to take steps immediately either to acquire the mine at Belt or in some other good location near it. Later, if proved, will have a railroad branch run to it. Will prove Sand Coulee during 90 days of the option bond.
