

Shaw, Thomas

January 2, 1913

Hill to P. N. Bernard, Kalispell, Montana  
Re England's hundred year experience with short-horn cattle as best combination of milk and beef cattle required by high rents per acre of dairy lands."I expect this winter to send Prof. Shaw to England to buy a number of selected cows from best ~~milking~~ strains in Kingdom and hope that will enable us to lay a foundation of dairy cattle that at the same time are equal to the best for beef."

JJH LetterBook, 5/27/11 - 6/10/16, p. 291
