

Smelting furnaces -- Montana March 31, 1888

<sup>W</sup>JJH to George C. Clark.

JJH has no smelter or works in Montana. The large works now being built at Great Falls belong to the Montana Smelting Company, among the largest stockholders of which are Cooper & Hewitt of N.Y., W. F. Gunning of N.Y. Thinks there is a large copper co. going in at Great Falls, expects to commence work this summer. Has no interest in any of these enterprises. At Great Falls probably over \$500,000 worth of property [land lots?] will be sold this year.
