Hill to W. C. Van Horne

"The showing by the S[outh] S[hore] & A[tlantic] is certainly a creditable one. If the M, H, & O are too hard to deal with, S[Sterling] and myself were thinking that possibly a good line could be located from some point on the SS&A to the Soo line, running through both iron ranges; at any rate a demonstration in that direction might bear good fruit in the settlement."
