Hill to Stephen

Offer to Nor. Pac. is given by Hill in detail as he thinks it should be made, but he believe it will be rejected."It is absolutely certain that we should never give up control of any of the St. Paul yard as it is the key to the connection between the Eastern & Southern & the northwestern lines running into St. Paul. I do not see that anything we can offer the N.P. is likely to be accepted by their committee & our agreement with the Dutch will not permit any such terms as they proposed."
