

Superior, Wisconsin

January 15, 1885

Hill to Senator S.J.R. MacMillan

Northern Pacific Railway is building a bridge over Rice's Point, Duluth, across the St. Louis River to the Wisconsin shore on the Superior City side. War Dept. permission for this provide that bridge may be used by other railroads on payment of fair compensation for such use and that it will be built with a draw near the Wis. channel. A draw is needed if ships are to load close to our property in Superior. Please go to Sec. of War and ask him to enforce this provision in the grant of right to build the bridge.
