

Todd County, Minn. - Oak timber      Dec.31,1886

Minot to N.C. Frederiksen, Chicago

Re our railroad lands and their prices. We have about 30,000 acres, meadow and timber, mixed growth, but largely oak, in Todd County, where we now have lumbermen at work getting out such timber as the Company can utilize for ties,&c. The land is not being wholly stripped.
