

Tuck, Edward

September 26, 1899

Edward Tuck to J. J. Hill.

Is glad to learn that Hill is "gradually carrying into effect the plan outlined to me last spring regarding the placing of some of the outside investments in a new company."

Is looking for an apartment for the Hill family in Paris for the coming year as suggested in Hill's letter. Thinks all the members of the family who are of age should see the Exposition.

General correspondence by date.
