

Weyerhaeuser & Company

September 18, 1895

Hill to Hon. John Leary, Seattle

A delegation of planters from the Islands are expected in San Francisco early next month and I hope, if they conclude to build, that we can bring them to Puget Sound. Mr. Weyerhaeuser's party has been ready for some time to send a representative to the Coast to establish a large business but has postponed definite action waiting to see if Northern Pacific comes into our hands. They think we should be more likely to handle the business in a way to encourage them to build up a very large business.
