Hill to F. Weyerhaeuser [sic] carbon and letter
book

Your offer at \$1,000,000 or 1½ million, while too low, will be accepted. Death of Vanderbilt has reduced all the stocks in the market. Yet the present time is about as favorable as we are likely to see for some time for you to buy some Great Northern, but there are few sellers. However, I think you can buy a thousand shares at not to exceed 165.
