

Yellowstone Division

June 26, 1880

Hill to J. T. Dodge, Engineer, Yellowstone Division,
Miles City, Dakota Territory

"I send you Roadmaster Mayer's letter regarding culverts and earthen pipe. When over the Road a few days ago I noticed and find that they have stood the Frost all right. I think they are better adapted where the flow of water is small. I hope you[r] sojourn in the Yellowstone region will be a pleasant one and that your health is good."
