

## OIL RECORDS

These fill 99 boxes on 16 shelves in Stack IV,  
Tiers 1, 2, and 3

They relate mostly to Montana oilfields, which are now practically exhausted. Oversize items other than maps are found after box 99 and fill 17 oversize folders. In addition, the mid-tier of oversize shelves on the west wall is filled with outside data, largely maps and charts.

Boxes 1-22 Correspondence, 1913-1954
