

Photographs

In the Personal Papers of L. W. Hill are letters that once had attached photos that have been removed and placed in the box (no. 17) of Photos in Family Papers (Stack II, Tier 2) . These pictures are arranged, where feasible, by dates of covering letters, references to which are pencilled on the backs of the photos. On the letters themselves are also pencilled cross references to the box of photos. There is also a folder of other photos, and some other photographic material. *An attempt has been made to index some of these - see "Wink Box"* See also Photographic Albums
