WATER AND SOIL RESOURCES BOARD: An Inventory of Its Watershed District Files

OVERVIEW

Agency:	Minnesota Board of Water & Soil Resources.
Title:	Watershed district files.
Dates:	1953-2000.
Quantity:	27.3 cubic feet (28 boxes).
Location:	See Detailed Description section for box locations.

HISTORY OF WATERSHED DISTRICTS

Watershed districts were established as public corporations by the Water Resources Board in accordance with the Minnesota Watershed Act [Minn. Stat. Chapter 112]; and since 1990 are established and overseen by the Water and Soil Resources Board under the [Minnesota] Watershed Law [Minn. Stat. Chapter 103D].

SCOPE AND CONTENTS

Records relating to the establishment and administration of Minnesota's watershed districts. Each district's file may include: (a) establishment documents and exhibits; (b) overall plan and related reports and hearings; (c) records of any boundary changes and amendments to the overall plan; (d) court orders, findings of fact, appeals, petitions, and other documents related to challenges to the establishment or boundaries of the district; (e) minutes of meetings; (f) correspondence, maps, and general material.

ARRANGEMENT

In two sequences: Boxes 1-12(part) are arranged by district number; numbered by the board in the order of their establishment. Boxes 12(part)-28 are alphabetical by district name.

RELATED MATERIALS

Hearing transcripts related to these files are cataloged separately as Water and Soil Resources Board, Watershed district hearing transcripts; pre-1978 district annual reports are cataloged separately as Minnesota Water Resources Board, Annual reports of watershed districts. These files are also related to the separately cataloged Conservation Department, Waters Division, Watershed district files.

INDEX TERMS

These records are indexed under the following headings in the catalog of the Minnesota Historical Society. Researchers desiring materials about related topics, persons or places should search the catalog using these headings.

Topics:

- Flood control—Minnesota.
- Managing.
- Regulating.
- Watershed management—Minnesota.
- Watersheds—Minnesota.

Organizations:

- Minnesota Water Resources Board.

Types of Documents:

- Maps—Minnesota.

ADMINISTRATIVE INFORMATION

Preferred Citation:

See the Chicago Manual of Style for additional examples.

Accession Information:

Accession numbers: 979-39; 989-115; 989-205; 991-101; 996-26; 997-50; 2006-50; 2015-68

Processing Information:

Catalog ID No.: 1703933

DETAILED DESCRIPTION

To request materials, please note both the location and box numbers shown below. All entries consist of one folder unless specified otherwise.

District numbered files.

These records were organized into categories by the Water Resources Board [WRB]. The first folder for each district includes an outline of the contents of the district's file. The terms "documents" and "miscellaneous documents" refer to such materials as correspondence, reports, petitions, findings of fact, notice of hearings, notice of appeals, court orders, motions, affidavits, chairmen's statements, minutes of meetings, and maps. Many transcripts of hearings were retained by the Water Management Board/Water and Soil Resources Board, and are now a separately cataloged series. Maps were also often retained by the board.

In Boxes 1-5, the various WRB categories are not in separate folders. An inventory sheet precedes each category, and summarizes the documents included. The content notes below are summarized from the "index" (contents list) found in the first folder of each district's files, sometimes supplemented from the individual category inventory sheets.

128.E.1.9B	17	<p>Minutes, September 1986 - 1996. The Effectiveness of Flood Control Structures of the Lower Minnesota River Watershed District, July 1970. 1 volume. In the Matter of the Improvement of the Minnesota River Navigation Channel from Mile Zero to Mile 14.7. 1 folder and 1 expansion folder. Transcripts, exhibits, court documents, and related materials in a challenge by a group of Dakota County property owners to the constitutionality of the Minnesota Watershed Act as it applied to a \$3 million project to establish a 9-foot channel for 14.7 miles up the Minnesota River from its junction with the Mississippi. They argued that assessments for the project violated due process. The Dakota County district court declared the Watershed Act unconstitutional; the Minnesota Supreme Court reversed this decision.</p> <p>Lower Red River Watershed District. 3 folders.
