State Capitol History Personal History / Photograph / Furniture Collection Form

The Capitol Historic Site is gathering information about the State Capitol to help us better interpret the site. We are interested in photographs from the early years of the Capitol and personal stories concerning the construction and alterations to the Capitol over the past 100 years. We are also interested in finding pieces of the furniture collection that were originally designed for the Capitol. If you, a friend or ancestor helped with the construction or later alterations of the Capitol, have early photographs of the building, or have information about the furniture, please complete this form. We may contact you for more in depth information.

Name	E-mail
Address	Day-time phone
City	State Zip

I have information on (check all that apply)

- Photographs** Describe below the photographs you have. Include any personal anecdotes related to the photographs. Please include any photocopies or digital images of the photographs.
- Personal History** Tell us your or a relative's Capitol experiences. Please be as brief as possible. Remember to identify the time period and list any documentation you may have.
- Furniture Collection:** Describe below the furniture you have that you believe to be from the original 1905 Capitol. Be as complete as possible, including any personal or family stories on how and when the furniture came into your possession of. Please include any photographs or digital images you have of the item(s)

All information becomes property of the Capitol Historic Site Program and will be used for research and interpretive purposes. It will not become part of the permanent MHS collections.

Brief Description of Recollection
