Summary Minutes

Jennifer Johnson filled in for Shawn Rounds as facilitator and minute-keeper for the meeting.

The committee members present agreed that the revised Work Plan looked fine.

Katie Engler from the Department of Administration was invited to attend the meeting based on her extensive knowledge of the Minnesota Government Data Practices Act (MGDPA), and the Act’s bearing on revision of the “Rights Management” element. Katie and the group went through two handouts. The first handout, Definitions and Classifications of Data Under the Minnesota government Data Practices Act, covers definitions of the classifications found in the MGDPA. The second was a proposal for discussion at the 27 July meeting. The proposal arose out of conversations between Katie and Jim Harris as they discussed how certain issues (e.g. contested data, records with more than one MGDPA classification) will be accounted for in the “Rights Management” element. The proposal included a chart of action items typically taken on data, how the content of that data is governed (e.g. MN statutes, business rules), how or if classification from the MGDPA is applied to the data, and dates applied to the actions taken on the data. The proposal also presented issues for discussion, such as how to take into account data sharing and contested data, as we revise the “Rights Management” element. Both handouts will be available at future meetings.
The group continued revision of the “Rights Management” element.

Will need definition for “caveat.”

Questions of overlap among the “Rights Management, Use History, and Management History” elements.

--------

The next committee meeting is scheduled for August 10th in Room G31, Judicial Center. The group will continue revising the “Rights Management” element, and will begin work on the “Function” element.
