Minnesota History: Building A Legacy

Report to the Governor and the Legislature on Funding for History Programs and Projects Supported by the Legacy Amendment’s Arts and Cultural Heritage Fund
Letter from MNHS Director and CEO

Over my first full year as director and CEO of the Minnesota Historical Society (MNHS), it has been a privilege to learn about the important work that Minnesota’s history organizations are able to undertake, thanks to the Arts and Cultural Heritage Fund.

Legacy funding not only helps MNHS staff pursue our mission, but more than 850 organizations across the state have preserved and shared Minnesota’s rich history through grants, partnerships, and more since 2009.

As of January 2020, Minnesota’s vibrant history community has received $58 million in statewide history and cultural heritage grants. In 2016, the Legacy Strategic Agenda Collaborative—made up of Minnesotans and organizations working across disciplines in state and local history—created a five-year plan to build on the successes of the first few years of Legacy grants.

This planning initiative concludes on June 30, 2020, and focuses on the following four key goals:

1. **Equip members of Minnesota’s history community with tools to meet individual and collective aspirations for long-term success and sustainability.**
   
   **Notable Project:** The Minnesota Alliance of Local History Museums’ (MALHM) work to improve local historical societies’ collections management systems
   
   After discovering many of Minnesota’s history organizations used an obsolete collections system, MALHM and its partners began piloting a new database in 2017. This strategic work continues today as more local organizations tap into this collections management system.

2. **Empower Minnesota’s history community to create and provide opportunities that develop all Minnesotans’ critical thinking skills through the exploration and practice of history.**
   
   **Notable Project:** The exhibit *Blue-Collar Battleground: The Iron Range Labor Story* at Minnesota Discovery Center in Chisholm
   
   Opened in December 2017 with Legacy support, this exhibit chronicles over 100 years of history on the Iron Range. This is a long-term exhibit that challenges visitors to think critically about important stories of mining, immigration, and more.

3. **Enhance existing relationships and develop new partnerships that connect people to the vast and rich historic resources that tell Minnesota’s history.**

4. **Amplify unfamiliar narratives, both past and present, through direct service, programs, and strategic partnerships**
   
   **Notable Project:** HACER’s project to document the history of Latino businesses in Minneapolis
   
   In 2019, the nonprofit HACER (Hispanic Advocacy and Community Empowerment Through Research) kicked off a Legacy-funded project to collect oral histories from the city’s Latino community, one of the fastest-growing populations in Minnesota.

These are just a few highlights of the amazing work produced by the Minnesota history community over the past five years. I encourage you to review this report with an eye toward projects underway in your community. We are grateful for your continued support of the Arts and Cultural Heritage Fund, and I look forward to the next innovative and strategic history achievements that Minnesotans accomplish with Legacy funding.

Kent Whitworth, director and CEO

This report is available at the MNHS website: mnhs.org/legacy.

On the cover: Legacy funding has supported a wide range of projects, including (clockwise from top left) restoration of the Wasioja Civil War Recruiting Station, a new exhibit on the history of the jingle dress, a documentary on St. Paul’s Historic Hill District, and restoration of the William A. Irvin museum ship.
Introduction

On November 4, 2008, Minnesota voters approved the Clean Water, Land, and Legacy Amendment to preserve and enhance some of the most important elements of our state. This amendment to the Minnesota Constitution, often referred to as the “Legacy Amendment,” created four funds, one of which is the Arts and Cultural Heritage Fund (ACHF).

The Legacy Amendment mandates that a portion of the ACHF be used “to preserve Minnesota’s history and cultural heritage” (Minnesota Constitution, Article XI, Sec. 15). Each January, the Minnesota Historical Society (MNHS) is required to submit an annual report to the governor and legislature detailing expenditures it has made from the ACHF.

This report details all ACHF grants awarded in CY19 and projects and programs funded through MNHS for FY20.

ACHF history projects are benefiting Minnesotans statewide by:

- Preserving our state’s most valuable historical and cultural resources for future generations
- Sharing our state’s stories and treasured resources with ever-growing audiences including students, teachers, scholars, researchers, genealogists, and the general public
- Connecting Minnesotans of all ages to each other and to history—history that is becoming more accessible than ever before

Appropriations

The Arts and Cultural Heritage Fund receives 19.75% of overall Legacy funding. In 2019, the legislature appropriated $32.96 million from the ACHF to MNHS for the two-year period July 2019-June 2021. That appropriation breaks down to $15.572 million for fiscal year 2020 and $17.383 million for fiscal year 2021.

The legislature divided the fiscal years 2020 and 2021 appropriations to MNHS into the following six categories:

<table>
<thead>

Historic Resources Advisory Committee (HRAC)

Legislation specifies that the HRAC, a volunteer citizen panel that guides decisions for the Minnesota Historical and Cultural Heritage Grants Program, has balanced statewide membership and includes representatives of local, county, and statewide historic and cultural organizations and programs.

It further requires that the HRAC shall include, but is not limited to, members representing the interests of historic preservation, local history, archaeology, archival programs, and other cultural programs related to the history of Minnesota.

The HRAC consists of 13 members serving two-year terms and two ex-officio members. They represent a variety of disciplines and are from diverse areas of the state. The committee roster for 2019, including two vacancies:

Jonathan Palmer, St. Paul (Chair)
• Executive director, Hallie Q. Brown Community Center
• BA in psychology, Morehouse College
• Currently completing MA in public affairs, Humphrey School of Public Affairs
• Qualified in grant management, program administration, and governance

Annette Atkins, Minneapolis
• PhD in American history/American studies, Indiana University
• Professor emerita of history, St. John’s University
• Former interim executive director, Stearns History Museum
• Qualified in local history, research, governance

Milissa Brooks-Ojibway, Duluth
• Collections manager, Glensheen, the Historic Congdon Estate
• AA degree in liberal arts, Fond du Lac Tribal and Community College
• Qualified in grant writing and implementing, collection policies, and object care

Tamara Edevold, Bagley
• Executive director, Clearwater Historical Society
• BA in history, Moorhead State University
• Qualified in local history, archives, exhibits, and collections management

Ginny Lackovic, Minneapolis
• Associate vice president at HGA
• Licensed architect in Minnesota and meets the Secretary of the Interior’s qualifications for historical architect
• Qualified in historic preservation

Robert Mack, Minneapolis
• 45 years of practicing preservation architecture, teaching preservation, service with preservation organizations, and technical writing on preservation subjects
• Author of the National Park Service’s Preservation Briefs #1 and 2
• Adjunct professor in architecture and landscape architecture at University of Minnesota
• Qualified in historic preservation

Richard Nash, New Prague
• Member of the MNHS Executive Council
• Lt. general (retired), Army National Guard
• 30th Adjutant General of the Minnesota National Guard (2010-2017)

Kathryn Ohland, St. Paul
• MS in architecture preservation and conservation, University of Minnesota
• Architectural historian
• Qualified in historic preservation

Matthew Piscitelli, Chaska
• Project archaeologist and digital media manager, SEARCH Inc.
• Research associate at the Field Museum
• Qualified in archaeology, grant administration, community outreach, education, and museum services

Benjamin Vander Kooi, Jr., Luverne
• Member of the MNHS Executive Council
• Attorney practicing at Vander Kooi Law Offices
• Past chair of Minnesota State Arts Board
• Adviser, National Trust for Historic Preservation
• Qualified in historic preservation, nonprofit and grants administration

Jill Wohnoutka, Bird Island
• Director, Kandiyohi County Historical Society
• Former director, Renville County Historical Society
• BA in history, Gustavus Adolphus College
• Qualified in local history, grant writing, archives, exhibits, and collections management

Ex Officio Members:

David Hakensen, president of the MNHS Executive Council

Daniel J. Schmechel, treasurer of the MNHS Executive Council
The Minnesota Historical Society
Executive Council
All grant recommendations for the Minnesota Historical and Cultural Heritage Grants Program are reviewed and approved by the Minnesota Historical Society governing board, the Executive Council.

Below is the list of members who served in calendar year 2019:

Officers:
David Hakensen, President
William D. Green, Vice President
Phyllis Goff, Immediate Past President
Kent Whitworth, Secretary
Daniel J. Schmechel, Treasurer

Members of the Executive Council:
Eric D. Ahlness
Ford W. Bell
Suzanne Blue
Kurt V. BlueDog
Barbara E. Burwell
Grant W. Davis
Michael J. Davis
M. Mitchell Davis
Barbara E. Burwell
Grant W. Davis
Michael J. Davis
M. Mitchell Davis
Michael B. Farnell
Stephanie L. Fehr
Thomas M. Fosythe
Steven R. Gibson
MayKao Y. Hang
Dennis L. Lamkin
Jean M. Larson
Monica Little
Richard C. Nash
Joseph S. Nayquonabe
Peter M. Reyes, Jr.
Anton S. Treuer
Ben Vander Kooi
Warren J. Zaccaro

Ex Officio Members:
Tim Walz, Governor
Peggy Flanagan, Lieutenant Governor
Steve Simon, Secretary of State
Keith Ellison, Attorney General
Julie Blaha, State Auditor

Minnesota History Coalition Members:
Council for Minnesota Archaeology
Minnesota Alliance of Local History Museums
Minnesota Archaeological Society
Minnesota Association of Museums
Minnesota Digital Library
Minnesota Genealogical Society
Minnesota Historical Society
Minnesota History Advocates for Research
Minnesota State Historical Records Advisory Board
Minnesota’s Historic Northwest
Northern Bedrock Historic Preservation Corps
Rethos (previously Preservation Alliance of Minnesota)

Accountability
The Minnesota Legislature has reiterated the mandate that every project and program supported by the Arts and Cultural Heritage Fund report “actual measurable outcomes, and a plan for measuring and evaluating the results.”

MNHS staff and partners are strongly positioned to ensure that ACHF projects and programs use best practices, current scholarship, and when appropriate, incorporate state-of-the-art technology for demonstrating measurable outcomes. During FY20-21, MNHS continued to evaluate the impact of ACHF projects and programs to ensure that they demonstrate measurable outcomes as well as economic value for citizens. These results will be shared on a website explained below.

Transparency
The Minnesota Historical Society has an obligation to the citizens of Minnesota to ensure that ACHF dollars entrusted to our care are invested in ways that are transparent and will produce the greatest measurable impact on lives, enabling our state to thrive.

To meet this goal, MNHS has assisted in the building of a website that inform the public about all ACHF initiatives funded through MNHS.

Minnesota’s Legacy, www.legacy.mn.gov, was created by the Legislative Coordinating Commission and contains information on all Legacy-funded projects.

Through the end of the biennium, MNHS will continue to post the most current information about history-related ACHF initiatives ensuring transparency and responsible stewardship of the funds.
Arts and Cultural Heritage Fund History Appropriations Language

Session Law Reference: Laws of Minnesota, 2019, First Special Session, Chapter 2, Article 4, Section 2, Subdivisions 4(a)-(b)(6)

Subd. 4. Minnesota Historical Society, FY2020: $15,572,000, FY2021: $17,383,000

(a) These amounts are appropriated to the governing board of the Minnesota Historical Society to preserve and enhance access to Minnesota’s history and its cultural and historical resources. Grant agreements entered into by the Minnesota Historical Society and other recipients of appropriations in this subdivision must ensure that these funds are used to supplement and not substitute for traditional sources of funding. Funds directly appropriated to the Minnesota Historical Society must be used to supplement and not substitute for traditional sources of funding. Notwithstanding Minnesota Statutes, section 16A.28, for historic preservation projects that improve historic structures, the amounts are available until June 30, 2023. The Minnesota Historical Society or grant recipients of the Minnesota Historical Society using arts and cultural heritage funds under this subdivision must give consideration to Conservation Corps Minnesota and Northern Bedrock Historic Preservation Corps, or an organization carrying out similar work, for projects with the potential to need historic preservation services.

(b) Historical Grants and Programs

(1) Statewide Historic and Cultural Grants
$5,846,000 in fiscal year 2020 and $7,004,000 in fiscal year 2021 are for statewide historic and cultural grants to local, county, regional, or other historical or cultural organizations or for activities to preserve significant historic and cultural resources. Money must be distributed through a competitive grant process. The Minnesota Historical Society must administer the money using established grant mechanisms, with assistance from the advisory committee created under Laws 2009, chapter 172, article 4, section 2, subdivision 4, paragraph (b), item (ii).

(2) Statewide History Programs
$5,846,000 in fiscal year 2020 and $7,004,000 in fiscal year 2021 are for historic and cultural programs and purposes related to the heritage of the state. Of this amount, $250,000 each year must be used by the Minnesota Historical Society to either produce or purchase and to distribute a book to engage and educate elementary school students on Minnesota’s natural resources, legacy, culture, and history. The book should be made available for free to educators and libraries and through state historical society sites to provide to a targeted grade of elementary school students.

(3) History Partnerships
$2,500,000 each year is for history partnerships involving multiple organizations, which may include the Minnesota Historical Society, to preserve and enhance access to Minnesota’s history and cultural heritage in all regions of the state.

(4) Statewide Survey of Historical and Archaeological Sites
$500,000 in fiscal year 2020 and $500,000 in fiscal year 2021 are for one or more contracts to be competitively awarded to conduct statewide surveys or investigations of Minnesota’s sites of historical, archaeological, and cultural significance. Results of the surveys or investigations must be published in a searchable form and available to the public on a cost-free basis. The Minnesota Historical Society, the Office of the State Archaeologist, the Indian Affairs Council, and the State Historic Preservation Office must each appoint a representative to an oversight board to select contractors and direct the conduct of the surveys or investigations. The oversight board must consult with the Department of Transportation and Department of Natural Resources.

(5) Digital Library
$375,000 in fiscal year 2020 and $375,000 in fiscal year 2021 are for a digital library project to preserve, digitize, and share Minnesota images, documents, and historical materials. The Minnesota Historical Society must cooperate with the Minitex interlibrary loan system and must jointly share this appropriation for these purposes.

(6) Grants
$200,000 the first year is for a grant to the Minnesota Military Museum to create and conduct a statewide story-sharing program to honor the distinct service of post-9/11 veterans in anticipation of the 2021 anniversary.

$115,000 the first year is for a grant to the Minnesota Military Museum to care for, catalog, and display the recently acquired collection of the personal and professional effects belonging to General John W. Vessey, Minnesota’s most decorated veteran.

$40,000 the first year is for a grant to the Isanti County Historical Society to relocate, update, and preserve the Moody School and the Grandy Union Church.

$150,000 the first year is for a grant to the commissioner of natural resources to maintain the history of the Grindstone River Dam at Hinckley. Any unencumbered balance remaining under this subdivision the first year does not cancel but is available the second year.
Dodge County Historical Society Adds New Life to Wasioja Historic District Through Restoration Work

Made up of a historic school, church, Civil War recruiting station, seminary ruins, limestone kiln, and the home of a local stonemason, the Wasioja Historic District has been on the National Register of Historic Places since 1975. But in recent years, the Dodge County Historical Society (DCHS)—which owns the school, recruiting station, and church—has undertaken new efforts to restore and interpret the buildings for future generations.

Established in 1856, Wasioja was once an up-and-coming village that today tells the story of early European American settlement in southern Minnesota. With the help of Legacy funding in 2018 and 2019, DCHS is working to turn the site into a robust tourist destination.

DCHS completed restoration work on the Civil War Recruiting Station in 2019, including improvements to the exterior and roof. Built of local limestone, more than 200 recruits passed through the station to join the Union Army, and most became part of Company C of the Second Minnesota Volunteer Infantry Regiment. It is the only remaining Civil War-era recruiting station in Minnesota.

In fall 2019, DCHS received a Legacy grant to hire a historic building architect to conduct a condition assessment of the Wasioja School and evaluate it for future restoration. Completed in 1860, the limestone building served as an area school for almost 100 years until 1955. Today the building serves as a community meeting space, and DCHS uses the second floor to store its collections.

DCHS and Dodge County have also received a $24,500 Heritage Partnership Program grant to create a joint interpretive plan for the Wasioja Historic District, with the long-term goal of increased tourism. Released in May 2019, a report from Bluestem Heritage Group recommended various content ideas to shape the district’s historical interpretation as well as opportunities to better share this history, including increased signage, new brochures, a website, and increased hours. The project also aims to develop more programming and exhibits to draw more visitors to the Wasioja Historic District and make it a tourist destination.
Now Ore Later, William A. Irvin Returns to Duluth to Share Shipping History

This summer visitors to Duluth will once again be able to explore the William A. Irvin museum ship to learn about North Shore iron and coal shipping and how that history shaped modern America.

“The Irvin was a significant part of Duluth’s shipping industry,” said Steve Rankila, museum manager. “It’s appropriate and an honor to have this iconic attraction back in Duluth’s Minnesota slip.”

The ship underwent significant repairs, thanks to a ACHF grant of $504,000 and $355,320 in matching funds. The Duluth Entertainment and Convention Center (DECC) partnered on the project with the City of Duluth, Minnesota Pollution Control Agency, US Army Corps of Engineers, and Fraser Shipyards.

At the shipyard, workers repaired more than 200 corroded rivets in the ship’s hull, fixed the electric mooring winches, and applied a fresh coat of paint in the color ore ship red.

The William A. Irvin is a steel-hulled bulk freighter built in 1938 by the American Ship Building Company for US Steel. Named after the president of US Steel at the time, the Irvin was known as the “Pride of the Silver Stackers” in reference to the color of the smokestacks which were a trademark of US Steel’s Great Lakes fleet.

For 40 years, the Irvin transported iron ore and coal between Duluth and Two Harbors and southern ports in Illinois, Indiana, and Ohio. The Irvin further stands out because it was outfitted for guests with elegant staterooms, an observation deck, and an oak-paneled dining room with chandeliers. US Steel invited wealthy customers as well as prospective investors to vacation on the ship where they could play shuffleboard, hit golf balls off the deck, and fly kites.

US Steel retired the Irvin in 1978. The DECC purchased the Irvin in 1986, renovated it, and permanently moored it at Canal Park where the museum is open seasonally for public tours. On average, 55,000 people visit the Irvin every year.

Chelly Townsend, DECC executive director said, “This generous grant that funded repairs will allow the vessel to be toured for many years to come.”
In May 2019, the Ramsey Hill Association debuted its new documentary, *St. Paul’s Historic Hill: Salvaging a Gilded Past*, at Dove Hill, one of the restored historic homes on Summit Avenue in St. Paul. The documentary tells the story of the neighborhood through oral histories from residents who aided in the renovation and preservation of the Historic Hill District. The Historic Hill District includes the neighborhoods of Ramsey, Crocus, Cathedral, and Summit Hills.

In the late 19th century, many large Victorian-era houses, such as the James J. Hill House, were erected in St. Paul. However, the neighborhoods and subsequently many Victorian houses in the Historic Hill District became decrepit and fell out of use during the Great Depression and after World War II. Furthermore, in the 1950s and 1960s, many families vacated the city in favor of suburban sprawl.

New Documentary Narrates the History and Preservation of St. Paul’s Historic Hill District

A new movement for historic preservation sprouted in the 1960s alongside new preservation laws, as St. Paul residents began buying and restoring the old houses. The film documents the preservation community that emerged in the 1960s and 1970s and worked to revitalize the historic district, despite the challenges of old infrastructure, heightened crime, and suburban sprawl.

Christopher Keith, a Historic Hill resident, touches on the romanticism of St. Paul’s historic district in the documentary, “The topography of St. Paul adds so much sentiment to its neighborhoods and so much identity, and that’s really evident here in the Hill District.”

The film was supported by a $85,700 Legacy grant and was produced in partnership with Twin Cities Public Television (TPT). *St. Paul’s Historic Hill: Salvaging a Gilded Past* aired on TPT June 2, 2019. It is free to view on tpt.org.
One hundred years ago in 1918-1919, the global influenza pandemic killed millions worldwide, including thousands of Native Americans. In the midst of widespread illness, a revolutionary new tradition of healing emerged in Ojibwe communities in North America: the jingle dress dance.

In April 2019, the new exhibit Ziibaaska’iganagooday: The Jingle Dress at 100 opened at Mille Lacs Indian Museum and Trading Post, exploring the story of the ziibaaska’iganagooday, or jingle dress, its connections to healing, and how the dance tradition has spread across Native communities in the last century.

Oral histories vary on where exactly the jingle dress first appeared, but some origin stories point to the Mille Lacs Ojibwe community. One version involves a man having a recurring dream of four women dancing in red, blue, green, and yellow dresses featuring metal cones.

After he shared his dream, his wife and other community women created the dresses and demonstrated the dance steps. When the woman began to dance, one very sick girl watched them, and soon she was up and dancing with them, healed of her illness. The jingle dress is still associated with healing today.

In the exhibit, visitors can examine jingle dresses from a variety of eras and communities and see how Native women have handcrafted garments or transformed store-bought dresses by adding decorative metal cones—originally created from snuff tobacco cans—to jingle as the wearer dances.

Visitors can also learn how jingle dress dance is popular today among Native women from a wide range of tribal affiliations as part of the competitive powwow circuit.

Exhibit content is presented in both English and Ojibwe and was curated by Professor Brenda Child, Red Lake Ojibwe and Northrop professor of American studies and American Indian studies at the University of Minnesota, and her students.

The exhibit is a partnership between the Minnesota Historical Society, the University of Minnesota Department of American Studies, and the Mille Lacs Band of Ojibwe community.

Ziibaaska’iganagooday: The Jingle Dress at 100 will be on display through Oct. 31, 2020.
The Minnesota Historical Society administers the Minnesota Historical and Cultural Heritage Grants Program and awards grants based on the recommendations of the Historic Resources Advisory Committee.

Through a competitive process, 2,677 grants totalling over $58 million have been awarded to 862 organizations in every county in Minnesota since the Legacy Amendment was passed in 2008.

Since the last report in January 2019, 212 grants totalling more than $5.6 million have been awarded in 56 counties to 172 organizations across Minnesota.

Minnesota Historical and Cultural Heritage Grants are available in two tiers:
- Small or Structured Grants of $10,000 or less
- Large Grants of more than $10,000

Ten percent of grants funding is used to administer and ensure the success of the Minnesota Historical and Cultural Heritage Grants Program. The funds allow MNHS to lead statewide grant-writing workshops and webinars, assist applicants with technical information critical to submitting a successful grant application, and support recipients throughout the life of their project.

To assure transparency and measurable outcomes of projects, grants staff members conduct onsite visits required by the Minnesota Office of Grants Management and, throughout the grant life cycle, monitor the progress of all awarded grants.

The Historic Resources Advisory Committee (HRAC) meeting at the Minnesota History Center.

The ACHF-supported Minnesota Historical and Cultural Heritage Grants Program provides a valuable opportunity for nonprofit and educational organizations, government units, and tribal organizations across Minnesota to preserve and share the state’s history and cultural heritage.

All grants awarded between Jan. 1 and Dec. 31, 2019 are listed on pages 14-30. Information on projects funded through future grant rounds will be available at mnhs.org/legacy.

FY20–21 Appropriations Language—Statewide Historic and Cultural Grants: $5,846,000 in fiscal year 2020 and $7,004,000 in fiscal year 2021 are for statewide historic and cultural grants to local, county, regional, or other historical or cultural organizations or for activities to preserve significant historic and cultural resources. Money must be distributed through a competitive grant process. The Minnesota Historical Society must administer the money using established grant mechanisms, with assistance from the advisory committee created under Laws 2009, chapter 172, article 4, section 2, subdivision 4, paragraph (b), item (ii).
Minnesota Historical and Cultural Heritage Grants
July 1, 2009-Dec. 31, 2019

Amount invested: $58,658,427
Total grants awarded to date: 2,677

Award range, with total grants awarded:
- $3,000 - $30,000
- $30,001 - $80,000
- $80,001 - $200,000
- $200,001 - $300,000
- $300,001 - $1,000,000
- > $1,000,000
Total Grant Award Dollars Per Person Per County
July 1, 2009-Dec. 31, 2019
Grants awarded Jan. 1 – Dec. 31, 2019. Project locations reflect where grant work is being accomplished.

Senate District 01, House District 01A

Roseau County Historical Society
Collections Inventory, Phase 2, $9,990
To provide better organization of the museum collections, allowing for greater public access to the community’s historic resources.
Roseau, Roseau County

Senate District 02, House District 02A

Clearwater County
Levorsen Mill Site Marker, $1,009
To design, produce, and install a historical marker for the Levorsen Mill Site in Clearwater County.
Bagley, Clearwater County

Helga Township
Repair and Replacement of Nary School Windows, $363,945
To hire qualified professionals to repair and replace windows at the Nary School (Consolidated School District No. 22), built in 1919 and listed in the National Register of Historic Places.
Helga Township, Hubbard County

Lake of the Woods County Historical Society
Interpretive Report, $9,800
To hire a qualified consultant to write an interpretive report for Lake of the Woods County Historical Society.
Baudette, Lake of the Woods County

Lake of the Woods County Historical Society
Security System Installation, $9,800
To hire qualified technicians to install a security system to protect the collections from theft and fire.
Baudette, Lake of the Woods County

Senate District 03, House District 03A

City of Ely
Ely Pioneer Mine Retaining Wall Construction Drawings, $10,000
To hire a qualified consultant to develop architectural drawings for the retaining wall at the Ely Pioneer Mine site, which opened in 1889 and is listed in the National Register of Historic Places.
Ely, St. Louis County

Cook County Historical Society
General Preservation Needs Assessment & Long-Range Conservation Plan, $7,662
To hire a qualified museum consultant to conduct a general preservation needs assessment survey and long-range collections preservation plan.
Grand Marais, Cook County

Ernest C. Oberholtzer Foundation
Rainy Lake Wilderness Ethic Oral Histories, $9,170
To document the history of “wilderness ethic” at Rainy Lake in 10-15 oral history interviews.
Rainy Lake, Lake of the Woods County

Tower-Soudan Historical Society
Tower Historic Fire Hall Preservation, Stabilization, Phase 1, $7,500

Grants awarded Jan. 1 – Dec. 31, 2019. Project locations reflect where grant work is being accomplished.
Senator District 49, House District 49A

Afton Press
Artist Hazel Belvo Publication, Research/Writing/Editing, $10,000
To hire qualified professionals to edit a manuscript on the life and work of Minnesota artist Hazel Belvo.

Edina, Hennepin County

Edina Morningside Community Church
Inventory of Books & 3D Objects, $9,986
To provide better organization of the church’s collections, allowing for greater public access to the community’s historic resources.

Edina, Hennepin County

Senator District 49, House District 49B

Edina Historical Society
Inventory Project, Phase 2, $40,800
To provide better organization of the museum collections, allowing for greater public access to the community’s historic resources.

Edina, Hennepin County

Senator District 50, House District 50B

Minnesota Masonic Historical Society & Museum
Partial Collections Inventory, Phase 2, $73,549
To provide better organization of the museum collections, allowing for greater public access to the community’s historic resources.

Bloomington, Hennepin County

Senator District 51, House District 51B

City of Eagan (Eagan Television)
Video Collections Archiving & Preservation Planning, $8,750
To hire a qualified consultant to conduct a needs assessment and write a digitization plan for Eagan Television’s analog video collections.

Eagan, Dakota County

Caponi Art Park
Establish Collections Management System, $9,995
To improve collections care and management through an updated collections management system.
Eagan, Dakota County

Caponi Art Park
Research Phase of Exhibition Development, $9,775
To hire a qualified consultant to write a research plan for upcoming exhibits.
Eagan, Dakota County

Senator District 52, House District 52B

Minnesota Genealogical Society
Cataloging Donated Books, $10,000
To provide better organization of the library collections, allowing for greater public access to the community’s historic resources.
Mendota Heights, Dakota County

Senator District 54, House District 54B

Afton Historical Society and Museum
Clean & Seal Artifact Storage Area Floor, $9,977
To hire qualified technicians to improve the collections storage area.
Afton, Washington County

Afton Historical Society & Museum
HVAC Renovation, Add Zoning, $9,135
To hire qualified technicians to upgrade heating, ventilating, and air conditioning system for the museum collections area.
Afton, Washington County

Afton Historical Society & Museum
HVAC Renovation, Replace Trunk Lines, $9,950
To hire qualified technicians to upgrade heating, ventilating, and air conditioning system for the museum collections area.
Afton, Washington County

Afton Historical Society & Museum
Install LED Linear Lighting, $9,778
To hire qualified technicians to upgrade lighting in their collections storage area.
Afton, Washington County

Grants awarded Jan. 1 – Dec. 31, 2019. Project locations reflect where grant work is being accomplished.
City of Afton
Local Designation of Historic Sites, $10,000
To hire a qualified archaeologist to complete local historic designations for three sites in Afton, including the Bolles Mill and Bissell Mound site.
Afton, Washington County

Senate District 55, House District 55A
Minnesota Malayalee Association
Oral History of Minnesota Malayalees, $6,440
To document the history of Malayalee immigrants to Minnesota in 25 oral history interviews.
Shakopee, Scott County

Scott County Historical Society
HVAC System Upgrade, $163,000
To hire qualified technicians to upgrade Scott County Historical Society’s heating, ventilating, and air conditioning (HVAC) system.

The Museum of Russian Art  
Collections Storage Renovation, $74,386  
To improve collections care and management through proper storage.  
Minneapolis, Hennepin County

The Museum of Russian Art  
Creating a Disaster Plan, $3,779  
To develop a disaster plan for the museum.  
Minneapolis, Hennepin County

Senate District 62, House District 62A  
Alano Society of Minneapolis  
National Register Evaluation, $9,750  
To hire a qualified historian to complete an evaluation to determine if the Minneapolis Alano Society, housed in the former 1887 home of John Washburn, is eligible for listing in the National Register of Historic Places.  
Minneapolis, Hennepin County

Calvary Baptist Church  
National Register Nomination, $7,650  
To hire a qualified historian to complete a National Register of Historic Places nomination for the 1883 Calvary Baptist Church.  
Minneapolis, Hennepin County

Minnesota Annual Conference United Methodist Church  
General Conservation Assessment & Long-Range Preservation Plan, $5,260  
To hire a qualified museum consultant to conduct a general preservation needs assessment survey and long-range collections preservation plan.  
Minneapolis, Hennepin County

Minnesota Council of Churches  
Research for Bdote: a Sacred Site, $10,000  
To hire a qualified historian to research the history of Bdote and create a script from the research.  
Minneapolis, Hennepin County

Grants awarded Jan. 1 – Dec. 31, 2019. Project locations reflect where grant work is being accomplished.
Senator District 62, House District 62B
The African American Interpretive Center of Minnesota
Outer Experiences: Black Life in Rural & Suburban Minnesota, $8,354
To document the history of black rural and suburban experiences in Minnesota in 15-20 oral history interviews.
Minneapolis, Hennepin County

Senator District 63, House District 63A
Farmer-Labor Education Committee
Video Post-Production, $10,000
To produce a rough edit of the documentary about the history of the Farmer-Labor Movement.
Minneapolis, Hennepin County

Minneapolis Pops Orchestra Association
Minneapolis Pops Orchestra History Publication, $7,403
To hire qualified professionals to publish a book on the history of the Minneapolis Pops Orchestra for its 70th anniversary.
Minneapolis, Hennepin County

Senator District 63, House District 63B
Richfield Historical Society
Acquire Microfilm Reader/Printer/Scanner, $9,989
To purchase a microfilm reader/printer/scanner to make microfilmed records more accessible to the public.
Richfield, Hennepin County

Senator District 64, House District 64A
Charles Thompson Memorial Hall
Construction Documents, $116,000
To hire a qualified consultant to develop architectural drawings for Charles Thompson Memorial Hall, listed in the National Register of Historic Places and one of the few remaining clubhouses for the deaf community in the United States.
St. Paul, Ramsey County

Jewish Community Action
25 Years of Jewish Minnesotans Organizing for Racial & Economic Justice, $9,270
To document the institutional history of Jewish Community Action in oral history interviews.
St. Paul, Ramsey County

Jewish Community Action
Preserving the Founding Years of Jewish Community Action: Organizing for Racial & Economic Justice, $9,940
To provide better organization of Jewish Community Action’s archival materials, allowing for greater public access to the community’s historic resources.
St. Paul, Ramsey County

Midway Chamber of Commerce Foundation
100 Years of History Research & Writing, $5,400
To hire a qualified historian to research the history of the Midway Chamber of Commerce.
St. Paul, Ramsey County

St. Clement’s Episcopal Church
Condition Assessment, $10,000
To hire a qualified architect to conduct a condition assessment of St. Clement’s Episcopal Church, dating to 1895 and listed in the National Register of Historic Places.
St. Paul, Ramsey County

Senator District 64, House District 64B
Maritime Heritage Minnesota
Minnesota Suburban Lakes Underwater Archaeology Project: Anomaly Assessment, $9,999
To conduct marine archaeology investigation of anomalies found in Prior Lake, Medicine Lake, and Lake Johanna.
St. Paul, Ramsey County

St. Catherine University
Welcoming the Dear Neighbor? A History of Housing Inequality in Ramsey County, $9,202
To hire a qualified historian to research the history of housing inequality in Ramsey County.
St. Paul, Ramsey County

Senator District 65, House District 65A
Hallie Q. Brown Community Center
Spirit of the Rondo Athlete Manuscript, $9,550
To hire qualified professionals to produce a manuscript on the history of athletes in the Rondo community from 1940 to 1970.
St. Paul, Ramsey County
Friends of Historic Virginia Street Church
Historic Virginia Street Church Construction, $150,500
To hire qualified professionals to make ADA improvements to the Cass Gilbert-designed Virginia Street Church, built in 1886 and listed in the National Register of Historic Places.
St. Paul, Ramsey County

Rondo Center of Diverse Expression
The Women of Rondo: Research & Writing, $8,350
To hire qualified consultants to research the history of women in the Rondo neighborhood, in preparation for a future exhibit.
St. Paul, Ramsey County

Senate District 65, House District 65B
Central Presbyterian Church
Rehabilitation of West Front, $200,000
To hire qualified professionals to repair the west facade of the Central Presbyterian Church, built in 1889 and listed in the National Register of Historic Places.
St. Paul, Ramsey County

Historic Saint Paul
Public Archaeology Program Using 412 Goodrich Artifacts, Phase 2, $10,000
To organize and catalog an archaeological collection of more than 1,000 artifacts collected during a 2018 archaeological dig of a historic privy at 412 Goodrich Avenue.
St. Paul, Ramsey County

Historic Saint Paul
St. Paul Neighborhood Video Project, Script, & Storyboard Writing, $7,075
To research and develop scripts and storyboards for neighborhood history tours.
St. Paul, Ramsey County

Minnesota Legislative Reference Library
Legislative Coordinating Commission Tape Conversion Project, $10,000
To digitize part of a large collection of archival audio recordings, allowing for greater public access to this historic resource.
St. Paul, Ramsey County

Ramsey County Historical Society
Digitize Everett Kroeger Photographic Collection, $7,194
To digitize a St. Paul photographer’s collection of photographs and negatives, allowing for greater public access to this historic resource.
St. Paul, Ramsey County

Saint Paul Public Schools (ISD #625)
Supplemental Teaching Kits for American Indian Education Program Resource Center, $5,740
To create Minnesota-based educational kits for the Saint Paul Public Schools’ American Indian Education Program.
St. Paul, Ramsey County

Senate District 67, House District 67B
Metropolitan State University Foundation
Our First 50 Years - Metropolitan State University Oral History Project, $9,350
To document the history of the first 50 years of Metropolitan State University in approximately eight oral history interviews.
St. Paul, Ramsey County

Grants awarded Jan. 1 – Dec. 31, 2019. Project locations reflect where grant work is being accomplished.
The Minnesota Historical Society has been preserving, sharing, and connecting people with history since 1849. With support from the Legacy Amendment’s Arts and Cultural Heritage Fund, the people of Minnesota are investing $12.85 million this biennium in history programs that will bring the power of history to Minnesotans of all ages in all corners of the state.

With Legacy support, the exhibit First Avenue: Stories of Minnesota’s Mainroom opened to blockbuster crowds at the Minnesota History Center in May 2019.

**FY20–21 Appropriations Language—Statewide History Programs:** $5,846,000 in fiscal year 2020 and $7,004,000 in fiscal year 2021 are for historic and cultural programs and purposes related to the heritage of the state. Of this amount, $250,000 each year must be used by the Minnesota Historical Society to either produce or purchase and to distribute a book to engage and educate elementary school students on Minnesota’s natural resources, legacy, culture, and history. The book should be made available for free to educators and libraries and through state historical society sites to provide to a targeted grade of elementary school students.
ARCHAEOLOGY

Archaeology Collections Management, $71,200
This project focuses on creating detailed digital catalog records for archaeological collections that were acquired before digital documentation was possible. This work will increase the accessibility and research value of the MNHS archaeological collections. It will also bring curation of these collections up to current standards and increase the number of archaeological objects available to view on the MNHS website.

Lab staff worked with five undergraduate interns and volunteers from the University of Minnesota and Hamline University to provide the students with hands-on artifact identification and cataloging experience. In the past year, staff completed an inventory of artifacts discovered during 1968-1976 archaeological research at Lower Sioux Agency. This process resulted in the creation of over 9,000 new electronic catalog records and a total of nearly 24,000 new records since the project began in July 2017.

EDUCATION AND PROGRAMMING

2020 Program Theme, $60,000
This project will develop a series of program offerings about voting rights and the 100th anniversary of women’s suffrage in 2020 across the state at various MNHS historic sites and museums. Programs will be offered in conjunction with the new Minnesota History Center exhibit She Voted: Her Fight, Our Right, opening September 2020.

Adventure-Based Programming – Paddle Through History, $20,000
This project supports developing a kayak-based tour program of the Mississippi River at Forest History Center in Grand Rapids. Staff will create two interpreter-led programs centered on logging history and the natural environment and exploring the huge role the river plays in the area’s history. Staff are also exploring a portable model where kayak programming can travel to other MNHS historic sites and museums for special events.

Funding will support the purchase of a trailer, fleet of kayaks, necessary equipment, and staff time to develop and pilot the program. Forest History Center plans to launch prototype tours in June 2020.

Curriculum & Teacher Professional Development, $151,640
This project focuses on creating primary source-based curricular materials and teacher professional development opportunities. In the past year, staff worked with the team developing the new exhibit Our Home: Native Minnesota (which opened December 2019) to create primary source-based curricular resources on Native American history in Minnesota.

Teacher professional development offerings vary year by year but include training for K-12 social studies and English teachers, college-level pre-service teachers in teacher preparation programs, and college-level social studies methods instructors and professors.

Elementary School Book, $250,000
The state legislature appropriated funding for the “Minnesota Historical Society to either produce or purchase and to distribute a book to engage and educate elementary school students on Minnesota’s natural resources, legacy, culture, and history. The book should be made available for free to educators and libraries and through state historical society sites.”

MNHS staff are currently preparing a project proposal to create a resource for upper elementary students. After a timeline and creation process are approved, an author will be selected and begin drafting content.

Interpreter Training, $184,858
This project involves researching, planning, and piloting a framework for training interpreters across the Minnesota Historical Society’s historic sites and museums. Frontline staff, especially interpreters, are key to engaging MNHS visitors. This new framework will be used to train new staff as well as assess and improve training for veteran interpreters. This effort will greatly improve program delivery and visitor experience across MNHS sites.

A rollout of this new training initiative will begin in winter 2020 with the goal of having every MNHS interpreter onboarded by the end of FY20. An institution-wide gathering of interpreters is planned in fall 2020, where staff can participate in sessions and workshops to further develop their skills and connect with their colleagues.
Legacy Field Trip Support Fund, $105,956
The high cost of transportation prohibits many Minnesota teachers from taking their students on field trips. The Legacy Field Trip Support Fund offsets transportation costs to all MNHS historic sites and museums. Eligible schools (those with 25% or more students enrolled in the Federal Free and Reduced Lunch Program) are reimbursed $4 per student, allowing more students access to field trips.

In FY19, this fund helped 20,401 Minnesota students from 176 different schools take field trips to MNHS historic sites and museums. Staff expect to serve a similar number of students in FY20.

History Center Public Programs, $54,472
This funding supports a program specialist position to develop programs for the Minnesota History Center’s core audiences, including adult learners and intergenerational/family groups. Content is tied to core and changing exhibit themes and broad history topics.

History Center Museum Programs, $47,000
This funding creates a program assistant position to work under the direction of the Minnesota History Center site manager to develop and implement programs to serve the museum’s core audiences, including adult learners and intergenerational/family groups, and field trips. Content is tied to core and changing exhibit themes and broad history topics. The position is expected to be hired in winter 2020.

Our Home: Native Minnesota Staffing, $28,350
This project supports hiring members of Dakota and Ojibwe communities to staff the Minnesota History Center galleries, including the new Our Home: Native Minnesota exhibit and associated programming.

Telling the stories of Minnesota’s Indigenous peoples requires hearing directly from these communities. MNHS also aims to have all museum guests feel represented in the faces and culture of staff when they visit the History Center.

Play the Past: The Field Trip for the 21st Century Learner, $24,659
This project creates a new model for school field trips, using mobile and web technologies to capitalize on the natural behaviors and learning styles of today’s students. Play the Past demonstrates how museums can use technology to create self-directed, personalized, responsive field trip experiences that deepen students’ connection to history while honing their critical thinking and problem-solving skills.

Students receive handheld devices installed with the mobile application that can be used in the Then Now Wow and Minnesota’s Greatest Generation exhibits at the Minnesota History Center. The application enhances students’ experiences and promotes interaction with the physical exhibits by encouraging them to answer questions, solve problems, and collect digital artifacts related to the exhibit and MNHS collections items. Students and teachers can access this “digital backpack” of collected artifacts back in the classroom, further expanding on the field trip experience.

Program Evaluation, $232,687
The Minnesota Historical Society continues to build a culture of evaluation. Evaluation staff provides technical assistance and support to staff to evaluate Legacy-funded projects and programs. An Institutional Evaluation Action Team, along with consultation from Wilder Research, helps provide strategy and direction for evaluation capacity-building efforts. Interns and numerous volunteers also support evaluation efforts.

In FY19, staff conducted more than 80 evaluation projects, including general visitor surveys gathering audience data at 14 MNHS historic sites and museums, with plans to conduct similar studies in FY20.

In the past year, staff have:
- Trained nearly 50 volunteers at four historic sites to conduct data collection through visitor intercept surveys
- Facilitated 26 team-based inquiry processes with 173 participants, to more systematically engage in data-informed decision-making
- Completed eight logic models with 38 participants
- Presented at three museum conferences to share the results of MNHS’s evaluation capacity efforts
Statewide Program Support, $187,987
This initiative supports the development, testing, implementation, and evaluation of interpretive programs and experiences across the statewide network of MNHS historic sites and museums. The staff supported by this fund work on project-based program development, including researching historical content, interpretive planning, testing new programs, and integrating new historical perspectives and stories into MNHS program offerings.

Projects are selected from proposals submitted quarterly by site staff. Those submissions are evaluated and selected based on available resources, goals of the project, alignment with MNHS strategic priorities, potential impact, and project duration. Recent work has included reimagining the daily experience at Historic Fort Snelling and Historic Forestville, assessing tours at Alexander Ramsey House, and developing new experiences at Snake River Fur Post for the 2020 season.

Another project involves each site completing a framework outlining its interpretation and themes, which will serve as “road maps” to assist staff in long-term planning. Mill City Museum and Oliver Kelley Farm are the first sites to create an interpretive framework.

EXHIBITS

Exhibits to Go, $8,000
This funding allows MNHS staff to manage its statewide traveling exhibits program of three exhibits: Coming of Age: The 1968 Generation, Electrifying Minnesota, and Fur Trade in Minnesota. In FY19, the exhibits traveled to 10 different locations around the state.

In FY20, Coming of Age: The 1968 Generation will be on display at Olmsted County Historical Society, Becker County Historical Society, and Waseca County Historical Society. Electrifying Minnesota will travel to Becker County Historical Society and the Minnesota Public Utilities Commission in St. Paul. Fur Trade in Minnesota will travel to Dassel History Center and Ergot Museum, Winsted Arts Council, and Runestone Museum in FY20.

First Avenue Exhibit, $284,906
The new exhibit First Avenue: Stories of Minnesota’s Mainroom opened May 4, 2019, at the Minnesota History Center and will be on display through May 3, 2020. Since 1970, First Avenue has been at the heart of the Minnesota music scene. The First Avenue exhibit takes you inside the sights, sounds, and stories of this landmark venue that put Minnesota music on the map. Through music, interviews, images, artifacts, and hands-on interactive elements visitors can relive the club’s nearly 50-year history.

This funding supports public communications and ongoing technical support of the First Avenue exhibit at the Minnesota History Center for the duration of its year-long run.

Main Street at 100 Exhibit, $217,191
October 23, 2020, marks the 100th anniversary of the publication of Sinclair Lewis’s Main Street: The Story of Carol Kennicott. The best-selling novel was based on Lewis’s hometown of Sauk Centre and his social critiques of American society in the 1920s continue to resonate today. This approximately 1,500 square foot exhibit, opening October 2020, at the Minnesota History Center, will reexamine Lewis’s legacy and draw parallels between social concerns of his time and our own.

Minnesota History Center Core Exhibit, $82,501
Staff will perform content and audience research and consult with stakeholder groups to gather information to develop a plan for the next generation of Minnesota History Center exhibits.

Our Home: Native Minnesota Exhibit, $378,389
The new exhibit Our Home: Native Minnesota opened Dec. 7, 2019 at the Minnesota History Center. In the exhibit, visitors can learn about Native communities in Minnesota, including stories of survival, resiliency, and adaptation.

Native Americans—Dakota, Ojibwe, as well as people from other tribal nations—have dwelled in this area for thousands of years and still live here today. This exhibit shares their stories, enduring presence, and deep connection to the land. View historic and contemporary photographs, maps, and artifacts—and learn how Native people have retained cultural practices, teachings and values, and an essential connection to home.

This exhibit is a new core exhibit at the Minnesota History Center and has no closing date.
Other History Center Exhibits, $50,000
This funding supports promoting and engaging Minnesotans across the state with additional exhibits at the Minnesota History Center, including Then Now Wow. The goal is to drive people to visit the Minnesota Center, so MNHS can use history to develop a more informed citizenry.

Prince: Before the Rain Exhibit, $56,000
On Sept. 21, 2019, Prince: Before the Rain opened at the Minnesota History Center. Minnesota photographer Allen Beaulieu helped shape the icon we know today as Prince. As Prince’s personal photographer and friend from the late 1970s into the early 1980s, he charted the musician’s progression from rising star to superstar.

Through it all, Beaulieu had access to Prince that few photographers have had, before or since. The exhibit features Beaulieu’s work from this era including 50 digital prints of Prince, The Revolution, Morris Day and The Time, and other artists as well as a handful of artifacts that speak to Prince’s image. The exhibit will be on display through May 3, 2020.

She Voted: Her Fight, Our Right Exhibit, $736,462
Opening Sept. 26, 2020, this 5,000 square foot exhibit will explore how Minnesota women shifted the political landscape before and after the passage of the 19th Amendment, and visitors can consider what actions they will take to shape our democracy.

On August 26, 1920, lawmakers signed the 19th Amendment into law, which gave women the right to vote. The 100th anniversary, which falls during a presidential election year, provides an opportunity to present an exhibit on the history and present state of voting rights in Minnesota.

Developed in partnership with the League of Women Voters Minnesota, the exhibit will focus on stories of activist women throughout the state. Their commitment to civic responsibility can inspire visitors to participate more fully in our democratic process.

USS Minnesota Exhibit at the Minnesota State Capitol, $37,000
This project aims to develop a display on the USS Minnesota battleship at the Minnesota State Capitol. The battleship was commissioned in 1907 and was part of the historic circumnavigation of the globe by the Great White Fleet in 1909. Struck by a naval mine during World War I, the USS Minnesota was decommissioned in 1921.

In 1907, the people of Minnesota presented the battleship crew with a set of service silver for use at formal functions. After the ship was decommissioned, the US Navy retained it and has offered to loan the silver set to MNHS for temporary display.

FINANCE

Administrative Costs, $574,328
Administrative costs reflect a portion of the “shared services” costs, such as human resources, payroll, financial accounting, reporting and payment processing, and the technology infrastructure and space-related costs for those services. These services are necessary to support the day-to-day operation of the entire organization as well as Legacy-funded programs and partnerships. MNHS works to provide these services at a reasonable cost while adhering to the statutory mandate that costs be “directly related to and necessary for a specific appropriation.”

HERITAGE PRESERVATION

We are Water MN, $20,000
This project features multiple statewide organizations and state agencies (MNHS, Minnesota Humanities Center, Minnesota Pollution Control Agency, and Minnesota Departments of Agriculture, Health, and Natural Resources) working with organizations to host the traveling exhibit, We Are Water MN. This exhibit explores the future of water in the state through the lenses of history, science, and the humanities.

In 2018-2019, this traveling exhibit had stops in St. Paul, Bemidji, Crookston, Duluth, Austin, Northfield, Grands Rapids, and Onamia. In 2020-2021, the exhibit will travel to six new host cities: Chisholm, Pipestone, Morris, Mankato, St. Paul, and Rochester.
INCLUSION AND COMMUNITY ENGAGEMENT

Community Programs, $191,083
The Community Programs team is a new effort at the Minnesota Historical Society that intentionally seeks to build deep, collaborative partnerships with communities of color. The long-term goal is to increase communities’ participation in MNHS programs, sites, and resources, and for MNHS to better share all histories that have shaped Minnesota.

Over an initial two-year period, Community Programs staff is working on programming with local African American community organizations, many of whom are new MNHS partners. The goal is to co-create meaningful programs in order to build trust and deepen collaborative community partnerships, so MNHS can better serve the African American community.

Over the past year, Community Programs staff has partnered with the Capri Theater and Film Society of Minneapolis St. Paul on the First Thursdays @ The Capri film series in North Minneapolis, which includes movie screenings and follow-up conversations with community leaders. Staff also partnered with Hallie Q. Brown Community Center to hold two genealogy workshops focused on the African American community.

Other partnerships include working with Urban Farm & Garden Alliance on a food tour of the Frogtown and Rondo neighborhoods and partnering with Robbins Urban Wellness Center on a community exhibit and resource table to commemorate the 400th anniversary of the first enslaved people’s arrival in what’s now the United States.

Veteran Relations, $84,665
This funding supports a position to assess the current state of the relationship between MNHS and the veteran community and work collaboratively to develop sustained engagement. This position also provides support for veteran and military-related programs and exhibits and serves as a resource for other MNHS staff.

Veteran relations highlights in the past year include:
- All MNHS historic sites and museums became members of the national Blue Star Museums program, which offered free admission to active military members and their family members from May 18-Sept. 2, 2019
- A new partnership with the 33rd Airlift Wing Minnesota Air National Guard, which includes adding more aviation history at Historic Fort Snelling and commemorating the 100th anniversary of the Minnesota Air National Guard in 2021
- Transition of the World War II Round Table program series from Historic Fort Snelling to the Minnesota History Center
- Hosting a US Marine Corps change of command at Historic Fort Snelling for 100 Marines and 50 guests
- Various tours conducted for active military and veterans groups
- Attending Military Action Group and United Veterans Legislative Council meetings each month

Diversity Programs, $102,753
This funding supports new initiatives at MNHS that seek to engage with the diverse communities of Minnesota. In September 2018, the Department of Inclusion and Community Engagement launched a two-year initiative to create a model for MNHS to build sustainable relationships with diverse communities across the state.

Through the work of an external task force of 10 community leaders and an internal workgroup of MNHS staff members, this project seeks to identify barriers to sustained engagement with African American communities and to develop infrastructure that supports ongoing, meaningful relationships. MNHS aims to develop a model that can be used in relationship-building with other Minnesota communities.

Native American Initiatives, $466,965
The Native American Initiatives team engages with Native communities throughout the state, ensures Native voices and concerns are addressed in MNHS work, provides content, and creates programming and engagement opportunities.

In FY19, the third annual Dakota Omniciye gathering was held at Historic Fort Snelling May 4 and 5, which marks the anniversary of the government’s removal of Dakota people from a concentration camp at Fort Snelling to exile outside of Minnesota. This truth-telling gathering invites Dakota people to return home to Minnesota and share community knowledge and traditional teachings.
Over three hundred participants enjoyed learning Dakota language, history, and culture, including over 20 students from the Bdote Learning Center. In 2020, the Dakota Omnicieye plans to focus on Dakota genealogy and family preservation as well as continuing language teaching for kids.

In FY19, the Dakota Community Council (DCC) continued to be an important MNHS partner on the revitalization project at Historic Fort Snelling. The DCC met with MNHS director and CEO Kent Whitworth and staff numerous times over the year, and subcommittee members have played key roles in developing content for interpretation and advising on design elements for the project. The DCC’s objective is to ensure that Dakota people, history, perspectives, and homelands are honored and sustained at MNHS properties within an area defined by the first treaty between the United States and the Dakota people in 1805.

LIBRARY & ARCHIVES

Collections Projects, $315,745
Staff conduct research, identify potential objects and collections that are significant to Minnesota history, and fulfill the MNHS core mission. They cultivate relationships with existing and potential object donors, negotiate acquisitions, perform initial assessments and condition evaluations, contribute to object documentation, provide for care and storage of collections, and meet with the public as needed to provide access to materials in the MNHS collection.

In the past year, staff have created or edited catalog records for nearly 4,500 items in the MNHS collection, including items related to the exhibit She Voted: Her Fight, Our Right. Staff are also constantly working on digitizing collections items for online access; one highlight of FY19 was the complete digitization of the entire women’s fashion hat collection, made up of 718 hats.

Digitization of Archival Collections, $259,771
This project supports digitization of MNHS collections in three streams: mass digitization, fulfillment of patron requests to digitize material, and digitization of select new collections.

In FY19, 253.15 cubic feet of archival collections were digitized on new equipment. So far in FY20, 70.4 cubic feet from 194 archival collections have been digitized, resulting in 2,572 digital objects online. Highlights include digitizing Stillwater State Prison records from 1854-1902, the sound and visual collection of Minnesota conservationist Ernest C. Oberholtzer, and the papers of Beneta McHie, an African American woman involved in education and social justice issues in the Twin Cities in the 20th century.

Digitization of Minnesota’s Newspapers, $500,000
MNHS continues to digitize hardcopy and microfilm newspapers from across the state for preservation and access. All digitized pages are then made available online via the Minnesota Digital Newspaper Hub on the MNHS website, which surpassed 3 million pages in August 2019. In FY19, 867,284 newspaper pages were digitized. So far in FY20, staff has digitized 235,583 pages with many decades’ worth of newspapers remaining.

Genealogy Librarian, $70,000
This project supports hiring a genealogy librarian position at MNHS to develop and coordinate specialized programming and resources, outreach, and services for family history audiences using the MNHS collections and library resources. The librarian will be responsible for piloting a robust volunteer genealogy patron assistance program, developing innovative public programs and classes in coordination with other program areas, creating new online resources, outreach to diverse audiences, and other related activities.
Legacy Research Fellowship Program, $35,280
Since 2014, more than 25 Minnesota scholars have been able to delve deeper into our state’s history through Legacy Research Fellowships. Fellows use resources from MNHS collections and the Gale Family Library to explore a wide range of Minnesota history topics to add to public knowledge of Minnesota’s history and cultural heritage.

In FY2019, eight researchers were awarded $3,500 fellowships:

• Heather Carroll, Minneapolis: Minnesota’s Art and Feminism in the 1970s
• Patricia Cavanaugh, St. Paul: The Early Development of Watershed-Based Governance in Minnesota
• Steven Dornfeld, Woodbury: 1969 Bus Strike: A Critical Turning Point
• Chris Hommerding, Minneapolis: The Otherness of Ober: Queerness, Wilderness, and Place-Making
• Louis Johnston, St. Cloud: The Work of the Minnesota Resources Commission, 1939-1947
• Jessica Milgroom, Elk River: Access to Wild Rice
• William Millikan, Minneapolis: Financing the Development of Minnesota with Indian Lands: The Homestead Act
• Barbara Scott, St. Paul: European American Women at 19th-Century Fort Snelling

Oral History Projects, $109,500
Everyone has a story. Collecting oral histories is one of the most proactive ways MNHS can fill gaps in its collection and preserve the history of all Minnesotans. In FY20, staff launched three new oral history projects and have collected nearly 50 interviews so far. The three projects are:

• Baseball in Minnesota: Staff are collecting baseball stories in Minnesota from all levels, including amateur teams, which Minnesota has more of than any other state in the country.
• Korean War and Cold War: MNHS has interviews in its collection with narrators who served in every conflict from the Civil War to the second Iraq War, except for the Korean War. With its aging population, this is likely the last opportunity to collect these stories. Staff will also collect stories of Minnesota veterans who served during the Cold War.
• Women and Voting Rights in Minnesota: This project will use oral history interviews to tell the story of what came after women were granted the right to vote in 1920 and bring the story into the 21st century. This project will coincide with the upcoming exhibit She Voted: Her Right, Our Fight.

Research & Content Development, $119,795
This project supports MNHS statewide interpretive initiatives by developing and vetting historical content, providing an interpretive framework for the organization, and maintaining scholarly and subject expertise networks throughout the state. This funding supports a senior historian position, who coordinates research efforts across MNHS and helps determine content priorities across historic sites and museums.

In the past year, staff work has included Native American content for the Snake River Fur Post, research for the She Voted: Her Fight, Our Right exhibit, content for Our Home: Native Minnesota, research on the lumber industry in Minnesota, and reviewing content for the exhibit under development at Historic Fort Snelling.

PUBLICATIONS

Graphic Novel Histories, $20,000
MNHS Press is working to publish a series of nonfiction graphic novels that present Minnesota history in a new and exciting format for students. This series will explore themes and topics within the curriculum of Minnesota social studies standards, allowing students and teachers to delve deeper into specific areas of interest while engaging students in a new, innovative educational approach. Each book will offer well-researched content and present history in a way that connects with modern-day themes and issues.

Educators are increasingly embracing the graphic novel format as an effective way to reach students who may not respond as well to traditional textbooks and/or who face language barriers in the classroom. The format broadens access to history content and offers a different model for critical thinking and engagement.
MNopedia – Digital Encyclopedia of Minnesota History, $221,491
MNopedia is a free, online platform offering core content and resources relating to Minnesota history, from prehistoric times to the modern day, in a wide array of subject areas. Content is developed by knowledgeable authors and carefully fact-checked. MNopedia is nimble and able to quickly and concisely highlight content and resources that are relevant to current events.

MNopedia draws on and enhances MNHS collections, interpretive programs, staff expertise, and institution-wide content initiatives. Externally, MNopedia works with scholarly institutions and forms partnerships with county and local history organizations throughout the state in order to engage communities statewide and provide a platform for sharing local stories and collections.

In FY19, MNopedia published 125 new articles, with a focus on adding content from communities of color and Greater Minnesota. MNopedia’s readership rose by nearly 60% in FY18-19 over the previous biennium.

In FY20, staff will develop new content on women’s suffrage in connection with the forthcoming Minnesota History Center exhibit She Voted: Her Fight, Our Right. So far in FY20, staff has commissioned 15 new articles, including seven by authors from communities of color.

Urban Biographies Series, $25,900
Minnesota Historical Society Press is launching a new series of histories on major municipalities in Minnesota. The Urban Biographies series will present key stories and profiles of communities from around the state, offering insights into the unique histories of Minnesota’s varied regions. Written by local experts, the books will provide clear, concise, historical overviews based on solid research and scholarship. Stories will be both familiar and surprising to readers who know a city’s streets but not the stories behind them.

The first four books will focus on Minneapolis, Duluth, St. Paul, and Rochester. Minneapolis, written by Tom Weber, and Duluth by Tony Dierckins will be published in spring 2020. St. Paul is slated for publication in spring 2021, and Rochester in spring 2022.

Women’s Suffrage & Voting Rights Content, $50,000
2020 marks the 100th anniversary of women’s suffrage in the United States, and MNHS Press will publish books and articles celebrating the contributions of women to Minnesota history and the struggle for voting rights.

Based on solid, documented research by experts in the field, publications will inform Minnesotans about this important area of state history and help connect that history to the state of affairs today, including the high rate of participation by women in the political process.

In August 2020, MNHS Press will publish a book by former Minnesota Secretary of State Joan Growe and retired Star Tribune reporter Lori Sturdevant on Growe’s career and commitment to advancing voting rights. Minnesota History magazine will produce a special 2020 issue focused on women’s rights and voting rights, with articles commissioned from top writers and scholars. MNopedia has commissioned four new articles on topics related to suffrage and women’s history.

PUBLIC COMMUNICATIONS

Multimedia Unit, $105,638
Legacy funds supports roughly 1.5 full-time multimedia positions to produce video, audio, and other multimedia content for education, interpretive, and exhibit programs across MNHS. The content is also used to inform the public about these MNHS programs.

Public Awareness & Communication, $204,896
MNHS staff create communication strategies and promotional materials for Arts & Cultural Heritage Fund-supported projects, programs, grants, and exhibits using media relations, social media, and various marketing tools. This work is aimed at providing access to history to the state’s students, teachers, and the general public.
VOLUNTEER SERVICES AND INTERNS

College Internship Program, $129,545
This program offers interns the opportunity to work alongside experts in the field and gain professional experience. During three cycles each year, college student interns are placed in various departments and sites across MNHS. These placements give MNHS staff new perspectives on our existing programs, provide interns valuable support and work experience, and also help students develop as future leaders.

The internship program places special emphasis on recruiting students from communities of color. Legacy funds provide stipends for students of color to create an even playing field and provide internship opportunities for all students.

In FY19, 64 college interns completed more than 9,600 work hours. This past fiscal year 22% of interns were from diverse communities.
Support from the Legacy Amendment’s Arts and Cultural Heritage Fund has resulted in partnerships between the Minnesota Historical Society and more than 20 organizations. It also supports the Heritage Partnership Program that works to build the capacity of two or more independent organizations to preserve and enhance access to Minnesota’s history and cultural resources, by supporting the creation and development of sustainable, history-based partnerships throughout the state.

A partnership between the University of Minnesota and MNHS, the Heritage Studies and Public graduate program kicked off in fall 2017.

FY20–21 Appropriations Language—History Partnerships: $2,500,000 each year is for history partnerships involving multiple organizations, which may include the Minnesota Historical Society, to preserve and enhance access to Minnesota’s history and cultural heritage in all regions of the state.
EDUCATION AND PROGRAMMING

Educational Achievement, $35,805
Partners: Washington Technology Magnet School (Saint Paul Public Schools), Northland Community Schools (Remer)

The Educational Achievement initiative allows MNHS to create partnerships with two school districts—one rural and one urban—to encourage use of MNHS products and evaluate programs on a deeper level through interviews, student feedback, and surveys. This increased and deeper use of MNHS materials, such as teacher professional development and field trips, helps ensure quality social studies instruction within these districts for teachers and helps prepare teachers to teach a more complete story of Minnesota and US history.

In the past year, Washington Tech students have taken field trips to Split Rock Lighthouse and Forest History Center, and a Northland secondary student interned at Forest History Center from July-October 2020.

History Day Partnerships, $324,690
Partners: Minnesota State Colleges & Universities, University of Minnesota, Minneapolis Public Schools, Saint Paul Public Schools, Associated Colleges of the Twin Cities

These funds enable MNHS staff to coordinate the National History Day program in Minnesota, which reaches approximately 27,000 Minnesota students annually. These partnerships specifically emphasize reaching students from diverse backgrounds, expanding statewide reach, and higher education partnerships that help build college readiness skills for middle and high school students and strengthen the mentoring skills of college students.

MNHS staff develops curriculum materials, host teacher workshops, delivers in-classroom presentations, coordinates a statewide network of mentors, hosts research open houses, coordinates a progressive contest cycle, and offers summer enrichment programs for middle and high school students. Participating students build academic skills and increase aspirations for higher education. Partnerships with public and academic libraries support research open houses.

Partnerships with school districts bring staff into classrooms. Partnerships with higher education support the mentor program, which brings undergraduate students into participating classrooms to provide one-on-one support for History Day students.

In FY19, about 27,000 students in grades 6-12 across Minnesota participated in History Day. Fifty-four Minnesota students traveled to Washington, DC, for the national competition, and two students took home medals: 1st place in the country for a senior individual website and 2nd place for junior individual performance. Five other students placed in the top 10 in their categories.

So far in FY20, History Day staff have developed curriculum materials, hosted six workshops for History Day teachers, and recruited, trained, and placed almost 100 undergraduate mentors to work in History Day schools across the state.

State Fair Programming, $28,000
Partner: Minnesota State Fair Foundation

MNHS and the Minnesota State Fair Foundation partner annually to share the history of the Great Minnesota Get-Together. The Minnesota State Fair Walking Tour allows visitors to pick up a brochure and explore fair history at 12 stops, including two new stops at the 2019 fair.

History-on-a-Schtick—an original, vaudevillian romp through Minnesota’s past with sing-alongs, trivia, and prizes—had 24 performances during the fair, two performances each day, in the West End Market, reaching nearly 5,000 visitors in 2019.

FINANCE

Administrative Costs, $126,127

MNHS works to minimize administrative costs while adhering to the legislative mandate that costs be "directly related to and necessary for a specific appropriation." In order to implement its Arts and Cultural Heritage Fund programs, these funds support delivery of Legacy partnership programs.
**HERITAGE PRESERVATION**

**Building Capacity of History Professionals, $60,000**  
*Partner: Minnesota Alliance of Local History Museums (MALHM)*

MALHM and MNHS collaborate to develop the capacity of history professionals across the state to better serve local communities and the 500+ organizations in Minnesota’s history community. Through this partnership, MALHM provides best practices training opportunities and resources for local history practitioners. MALHM has also recently taken on the issue of creating a reliable collections management system for local organizations as the ubiquitous PastPerfect software’s future becomes less stable.

MNHS and MALHM also partner on an annual conference. The 2019 conference was held in Red Wing in April 2019 over three days with 255 history practitioners attending. Planning is underway for the 2020 conference in Austin.

**Legacy Strategic Agenda Collaborative, $70,000**  
*Partner: Minnesota Alliance of Local History Museums (MALHM)*

The 2016-2020 Legacy Strategic Agenda fosters innovation and growth of history and cultural heritage in communities across the state. It invests in the future of communities by finding new ways to partner with diverse cultures and groups and helps make Minnesota history more visible and accessible. The LSA Collaborative is made up of 15 volunteer members who hail from diverse disciplines, cultures, and areas of the state that are part of the Minnesota history community.

The Collaborative launched action teams that create momentum around LSA’s strategic priorities: history education, Legacy grants, unfamiliar stories, and partnerships. The team’s work spans three phases: 1) survey and focus group research, 2) implementation and evaluation, and 3) sharing results and models.

In the past year, priority action teams have begun the process of wrapping up their projects and creating final products that history practitioners can use in order to more readily access Legacy grants, connect with school audiences, and tell and amplify inclusive history.

**Historic Preservation Corps, $450,000**  
*Partner: Northern Bedrock Historic Preservation Corps*

This partnership provides training for young adults in historic preservation techniques while addressing the preservation needs of the state’s historic structures and landscapes. The partnership between Northern Bedrock Historic Preservation Corps and MNHS increases the viability of a historic preservation activity by building on a conservation corps model.

During the 2019 field season, Northern Bedrock Historic Preservation Corps completed 17,720 hours on service projects helping to maintain and repair 51 historic structures and restore monuments in 13 cemeteries across Minnesota. Project locations included Hennepin History Museum in Minneapolis, Adas Israel Chevra Kadisha Cemetery in Duluth, Halfway Ranger Station in Ely, Old Sandstone School in Sandstone, and Pope County Museum in Glenwood.

**Minnesota Main Street Partnership, $142,644**  
*Partner: Rethos (formerly Preservation Alliance of Minnesota)*

As a member of the Main Street America network, Minnesota Main Street continues to provide the training information and networking tools needed to boost commercial districts in local Main Street communities. The Main Street Four Point Approach is a common-sense strategy to downtown revitalization with proven results showing increases in property improvements, new business development, new job creation, and volunteer participation. Using the Main Street methodology, each of these unique historic towns has seen social and economic vitality return to their downtowns while showcasing outstanding historic structures.

The partnership provides ongoing technical assistance to the designated Main Street programs, provides packaged in-house preservation design training and services as requested, counsels potential Main Street programs, promotes Minnesota Main Street statewide, provide peer-learning and networking opportunities for designated Main Street programs, trains new local directors and volunteers, and collects data from Main Street programs quarterly.
As of the end of 2019, Minnesota has 12 Main Street cities: Albert Lea, Faribault, Mankato, New Ulm, Northfield, Olivia, Owatonna, Red Wing, Shakopee, Wabasha, Willmar, and Winona. Albert Lea and Olivia are the most recent additions. In the past year, façade and signage projects have begun involving preservation of historic buildings in Olivia, Wabasha, Winona, Red Wing, and Faribault.

**Preservation Education, $87,516**  
*Partner: Rethos (formerly Preservation Alliance of Minnesota)*

This program provides education for homeowners, realtors, community members, and professionals in the care and history of historic buildings. This takes the form of classes produced across the state, covering topics from identifying wood used in homes to repairing old windows and instruction in photographing old buildings. Classes are taught by industry professionals.

In FY19, 29 homeowner classes and community events occurred, including partnerships with Osher Lifelong Learning Institute, Northern Bedrock Historic Preservation Corps, Minnesota Tool Library, and NeighborWorks Home Partners. The program also expanded to Duluth, Little Falls/St. Cloud, Mankato, and Winona.

**INCLUSION AND COMMUNITY ENGAGEMENT**

**Diversity Outreach, $105,128**  
*Partners: various*

This allocation supports the work of the Department of Inclusion and Community Engagement (DICE) to develop new constituents for MNHS. The project supports the Department of Inclusion and Community Engagement’s learning and development work internally at MNHS, including an annual conference on diversity and inclusion for staff.

DICE also uses this money to capitalize on partnership opportunities for small projects or support of community events throughout the year. This money has gone to sponsor events with Ka Joog, Twin Cities faith-based organizations, Twin Cities Black Film Festival, and other organizations in past years.

**Heritage Studies & Public History Graduate Program, $172,722**  
*Partner: University of Minnesota*

Launched in fall 2017, the Heritage Studies and Public History graduate program (HSPH) takes advantage of the deep scholarly expertise at the University of Minnesota as well as the Minnesota Historical Society’s extensive resources and expertise to offer unparalleled training in the theory and methods of heritage and public history studies at the graduate level. This two-year program offers a master’s degree in one of three cultural heritage tracks: historical archaeology, historic preservation, and public history.

Students in the program gain technical knowledge about the field while also learning how to address issues of inclusion and equity within the practice. Through a number of field experiences, students also learn to work collaboratively with community agencies and organizations to enhance historical narratives or develop cultural resources that ensure more equitable practices.

In spring 2019, six students from the HSPH program received their master’s degrees, and 100% of graduates are now employed in the field. So far graduate students have had more than 50 internships and summer fellowships with 25 different community organizations, and students’ work has garnered significant media coverage and won prestigious national awards. In the 2019-2020 school year, the program has 23 graduate students and will graduate its second class of students in May 2020.

**Museum Access, $81,870**  
*Partners: Minnesota Access Alliance, VSA Minnesota, and Minnesota Council on Disabilities*

The Minnesota Historical Society is committed to providing access for all visitors, staff, and volunteers by removing barriers that prevent people from engaging with our sites, collections, website, social media channels, programs, and employment.

Access work at MNHS takes many shapes and supports all 26 historic sites. In the past two years, it has involved an overhaul of access pages on all 26 MNHS historic sites and museums’ websites, the launch of a partnership with Project Search to increase inclusion in the internship program, ADA reviews, improvement of maps, the formation of an internal MNHS task force on access, a review of exhibit procedures, new accessibility accommodations at sites, and multiple educational offerings for staff around access.
In the past year, MNHS staff launched the US version of the My House of Memories app and training workshop to support people with memory loss and their caregivers. MNHS also started new access accommodations, including open playdates for families with autism at Mill City Museum and the Minnesota History Center, headsets and mics for guided tours at the Capitol, new signage at the Gale Family Library, and new ADA-compliant parking signage and spots at Forest History Center.

In the next year, MNHS will launch an accessibility foundations training for all new interpreters across historic sites and continue to evaluate sites’ accessibility and visitors’ preferred accommodation options. MNHS will also continue to offer free access workshops for cultural access professionals in partnership with the Minnesota Access Alliance.

**Museum Fellows Program, $102,202**
*Partners: University of Minnesota, Augsburg University*

The Museum Fellows Program encourages Twin Cities undergraduates from diverse communities to explore the challenges within museums, historical organizations, and cultural institutions as they relate to inclusion, representation, narrative, and the workforce. The program is designed to encourage more students to consider working in the museum field, and consists of three major phases: a three-credit college course to introduce students to the museum field and examine challenge of inclusion in the field; paid summer internships; and a museum study trip to Washington, DC, to observe practical application of the concepts and theory learned throughout the program.

In FY19, 18 students successfully completed the Museum Fellows Program.

**Neighborhood Leadership Program, $83,519**
*Partner: Amherst H. Wilder Foundation*

MNHS and the Wilder Foundation work together to provide greater access and awareness of MNHS resources to St. Paul neighborhoods through the Wilder Foundation’s Neighborhood Leadership Program (NLP). NLP is a six-month training program for existing and emerging leaders to amplify their role in community as leaders and to take action to improve their community. NLP also offers six weeks of leadership training delivered in Spanish for the Latino community as an extension of the traditional program.

Each year the program accepts 25-30 participants and has nearly 800 alumni from a diverse range of ages, cultures, experiences, languages, locations, and socioeconomic backgrounds. The history components of NLP help participants understand how the past has contributed to current issues that St. Paul communities face.

In FY19, NLP contracted with Dr. Talaya Tolfree to integrate restorative practices into the program in an effort to better equip community leaders to address ongoing harm across communities. The curriculum was revised to strengthen participants’ understanding of the role relationships, values, and voice play in building stronger communities. Seventeen participants graduated the program at a ceremony held at the James J. Hill House in spring 2019.

**Youth Partnerships, $97,238**
*Partners: University of Minnesota's Department of African American & African Studies, Hallie Q. Brown Center, Minneapolis Community & Technical College, Saint Paul Public Schools*

MNHS partners with diverse organizations to create in-depth, meaningful learning experiences for high school students that help to foster a sense of belonging, explore career opportunities, network with professionals, and tackle issues within the community.

The Teen Action Group (TAG) is a school-year-long program that helps introduce high school students to museums, what they do, and how communities are represented. Together students research underrepresented histories, organize events, and present their findings in new ways. This program uses historical knowledge and resources to learn about current events and issues affecting Minnesota’s diverse communities.

In FY19, eight students participated in TAG and supported intergenerational community programming in partnership with Hallie Q. Brown Center and the University of Minnesota. Students curated artifacts connecting with The 1968 Exhibit; interviewed museum staff about their career journeys; shared a performance on the implications of the 1969 Morrill Hall Takeover at the University of Minnesota; and created zines inspired by the First Avenue exhibit at the Minnesota History Center.

In FY20 so far, eight TAG students have supported the opening of the Our Home: Native Minnesota exhibit through collections research and learning from various internal and external stakeholders about the histories of Indigenous peoples in Minnesota.
2019 was the second year of CRECER (Cultivating Revolutionary Education through Cultura y Empoderamiento de Jovenes), which served nine students from the Twin Cities metro through July 2019. Students engaged in culturally specific learning and research focused on Chicanx/Latinx history, which culminated in individual research projects and pop-up books. Students also presented a successful workshop titled “Pop-Up Books and the Need for ‘Our’ Stories in the Classroom” at the Free Minds Free People national conference at the University of Minnesota.

In 2018, MNHS launched the Nia program, which served nine students during spring break and focused on African American history and culture. Students visited various community-based historical and cultural sites in the Twin Cities, connected with community leaders, and delivered speeches at Hallie Q. Brown Center in St. Paul about how the history and knowledge they learned contributed to their sense of individual purpose and their collective call to action.

In 2019, MNHS launched its latest teen program, the Asian American Podcast Initiative. Through the program, 10 students learned about Asian American community building, innovation, and overcoming struggles through dialogue. Students then created their own podcast episode through interviewing, recording, and narrative storytelling.

**CY19 Heritage Preservation Partnership Program**

**CollectiveAccess Minnesota Training & Support Development, $96,880**

This partnership had its start in April 2014 when a task force of Minnesota-based collection managers and other museum personnel from 15 local historical societies began working together on the future of their collections management systems. The software used by most Minnesota history museums runs on an obsolete database, which puts collection data at risk. The task force determined CollectiveAccess, a free, open-source, web-based collections management system currently in use by a wide range of museums, would be the best solution. In 2017, the Minnesota Alliance of Local History Museums (MALHM) received a Heritage Partnership Program grant to launch a pilot program using CollectiveAccess. The five pilot sites worked with the Minnesota local history museum community to develop a customized Minnesota version of CollectiveAccess. The pilot sites have all converted their collection data to CollectiveAccess and have used it exclusively and successfully for about a year.

For this 2019 grant, MALHM and 10 partnership sites will develop a process to ensure the success of new users to CollectiveAccess Minnesota. The goals for this project include 1) Establishing an application system to add new users to CollectiveAccess Minnesota to ensure organizations have the appropriate personnel and financial capacity to join the software community, 2) Developing a training program and appropriate manuals and tutorials to provide a base level of proficiency to users, and 3) Developing an ongoing support program to meet the needs of users and answer questions in a timely manner.
**Development of Regional History Groups, $29,890**
*Partners: Minnesota Alliance of Local History Museums, Blue Earth County Historical Society, Glensheen, Otter Tail County Historical Society, Winona County Historical Society*

In Minnesota, there are approximately 570 local history organizations around the state. Some areas of the state have regional history groups that serve a large number of organizations, but others don’t. The Minnesota Alliance of Local History Museums (MALHM) aims to grow the state’s network of regional history groups in partnership with several local history organizations.

One of the top requests from MALHM members and conference attendees is additional networking opportunities to connect with colleagues in the field. By creating additional regional history groups, colleagues can learn from one another, increase collaboration, and offer support and advice close to home.

Otter Tail County Historical Society will lead the creation of a regional history group that encompasses Clay, Wilkin, Traverse, Otter Tail, Grant, Douglas, Pope, Becker, and Stevens Counties and approximately 20 area organizations.

Glensheen will work with organizations on the North Shore and in the Iron Range and Boundary Waters area. Currently, the Northland History Coalition exists—covering Carlton, Cook, Lake, and St. Louis Counties—but it has struggled with regular meetings and structure, in part due to the group’s large geographic region. Glensheen and MALHM will work with the area’s 29 organizations to figure out the most effective structure for the group, including the option of splitting up into multiple smaller regions covering Northern Minnesota.

Blue Earth County Historical Society and Winona County Historical Society will work to develop a regional history group in south central and southeast Minnesota. The area was once part of the Southern Minnesota History Assembly, which has disbanded. This area covers a 20-county region from Brown and Watonwan Counties in the west, south to counties on the Iowa border like Fillmore and Mower Counties, north to Goodhue, Le Sueur, Rice, and Sibley Counties, and east to Winona County. The area includes approximately 91 organizations, and partners will determine the feasibility of such a large group early on, or if multiple regional history groups are needed.

**Digitization of Ecologic History in the Driftless Area of Minnesota, $24,925**
*Partners: Winona State University, Winona County Historical Society*

The Winona County Historical Society (WCHS) and Winona State University (WSU) have formed a partnership to digitize several items in order to make them more accessible and educate the community about the local ecologic history of the Driftless Area. This project will digitize surveyor’s field notes from January 21, 1862, and a herbarium specimen book of local Winona flora that was compiled in the 1890s by a student attending Winona State Teachers College (now Winona State University).

The surveyor’s field notes provide a record of the Winona area as it appeared in the middle of the 19th century, including landmarks and natural resources. The herbarium specimen collection appears to have been compiled under the direction of Dr. John M. Holzinger, who was a faculty member in the late 1890s until 1920s at Winona State Teachers College and an internationally renowned botanist.

The items to be digitized are held by WCHS and housed at their main museum facility in the Laird Lucas Library and Archives. WCHS will grant WSU permission to make items publicly accessible through its digital repository, OpenRiver.

In addition to the digitized materials, this project plans to construct a digital map from the 1862 surveyor’s field notes. This map will reconstruct the landscape of mid-19th century Winona, showing the vegetation, landmarks, and waterways as they were detailed in the field notes.

WCHS and WSU will also plan an interpretative program to introduce the community to this project and create educational opportunities for the community to learn about the ecologic history of the Driftless Area.
Otter Tail County Asset Mapping, $79,500  
*Partners: Rethos (formerly Preservation Alliance of Minnesota), Springboard for the Arts, Otter Tail County Historical Society*

Rethos, Springboard for the Arts, and Otter Tail County Historical Society will partner to asset map designated areas in Otter Tail County through one-on-one conversations, focus groups, or other techniques. This work will identify people, places, characteristics, and stories that define their communities.

Mapping cultural assets creates a foundation to preserve, better celebrate, and promote them. Without proper documentation, many assets—particularly in rural communities—will likely never be identified. This project aims for Otter Tail County’s cultural assets to achieve locally led economic development.

The project combines Rethos’s expertise in heritage preservation and asset mapping, Otter Tail County Historical Society’s expertise in the region’s history and heritage, and Springboard for the Arts’ strengths in facilitation and creative community engagement.

Gathered information will be turned into GIS (geographic information system) maps of Otter Tail County, which will be a public resource. Maps will be available on the Rethos website and any Otter Tail County organization that wishes to host them.

This project will also create a toolkit to ensure this program is replicable and transferable to other locations in order to take inventory of Minnesota’s vast undocumented cultural and intangible heritage resources in ways that are authentic to communities.

---

A Partnership and Long-Term Framework to Generate & Share Cultural and Ecological Knowledge to Sustain Heritage Landscapes, $74,014  
*Partners: University of Minnesota’s Department of Geography, Environment, and Society, Leech Lake Band of Ojibwe, Leech Lake Tribal College, University of Minnesota’s Cloquet Forestry Center*

This partnership aims to investigate the interactions between traditional Anishinaabe cultural practices and landscape vegetation patterns, including the use of fire, a tool thought to have been an important part of Anishinaabe land tending prior to European-American settlement.

This partnership has three main goals:

1. **Build regional capacity and knowledge for cross-cultural fire history, based at Leech Lake Tribal College, to develop and undertake additional ecological-land use investigations on ceded and reservation territories in northern Minnesota and build a lasting collaborative environment of mutual engagement and benefit.**

2. **Develop a case study of Star Island in Cass Lake that merges ecological, archaeological, and traditional knowledge and oral history to better understand how the ancestral Anishinaabe of the Leech Lake region tended cultural resources and landscapes, and how those activities are reflected in vegetation patterns today. This case study would be used to build a dialogue around cultural practices that have shaped the forests and provide materials for a knowledge-sharing workshop.**

3. **Model an equitable collaborative approach to cross-disciplinary research that merges western science and traditional knowledge through respectful cultural engagement to better understand Minnesota’s cultural and ecological history.**

This project will share the Leech Lake Band’s long reciprocal relationship to the land using a case study of Star Island as a pilot opportunity to gather stakeholders and begin a long-term conversation that is inclusive of cross-cultural perspectives on the ecology of people, fire, and pine forests.
Public Archaeology Fieldwork, $113,020

Partners: Dakota County Historical Society, Ramsey County Historical Society, Scott County Historical Society

For the past several years, the historical societies of Dakota, Ramsey, and Scott counties have successfully worked together on archaeology projects to help share the cost of this expensive work. In this new project, archaeological fieldwork will occur at one farmstead and one Indigenous site in each county.

The material culture remains found during excavation will be analyzed and compared to identify differences and similarities in diet, tools, and sources of manufactured goods. This work will help increase public understanding of the people who lived in these counties in the past. The partners will also work to engage the public in archaeology programming before, during, and after the fieldwork.

In Ramsey County, fieldwork will occur at the Gibbs Farm and an Indigenous site near Fish Creek. In Dakota County, the Samuelson Farm and Kenneally site will undergo archaeology work. Sites are still being identified in Scott County.
In addition to grants, programs, and partnerships, the Minnesota Legislature has appropriated funding from the Legacy Amendment’s Arts and Cultural Heritage Fund to support initiatives for history, including the Statewide Survey of Historical and Archaeological Sites, Minnesota Digital Library, and Additional Projects. These initiatives support statewide efforts to preserve and share history for future generations.
FY20 Statewide Survey of Historical and Archaeological Sites

The Statewide Survey of Historical and Archaeological Sites provides opportunities to expand our understanding of these sites statewide.

Projects are defined by an oversight board and are conducted through competitive-bid contracts. So far three major topics have been addressed by the survey: identification and protection of sensitive historic and archaeological resources; geographic surveys of poorly known areas of Minnesota; and thematic studies of poorly understood historic contexts.

To date more than 30 projects have been conducted, which have expanded the number of documented historic and archaeological sites in Minnesota, increased our understanding of where such sites are likely to be located, and illuminated cultural traditions, lifeways, and technologies dating to the earliest human occupations of the state.

FY20-21 Appropriations Language—Statewide Survey of Historical and Archaeological Sites: $500,000 in fiscal year 2020 and $500,000 in fiscal year 2021 are for one or more contracts to be competitively awarded to conduct statewide surveys or investigations of Minnesota’s sites of historical, archaeological, and cultural significance. Results of the surveys or investigations must be published in a searchable form and available to the public on a cost-free basis. The Minnesota Historical Society, the Office of the State Archaeologist, the Indian Affairs Council, and the State Historic Preservation Office must each appoint a representative to an oversight board to select contractors and direct the conduct of the surveys or investigations. The oversight board must consult with the Department of Transportation and Department of Natural Resources.

Archaeologists doing excavation work at a site along the Crow Wing River in Wadena County.
Archaeological and Geomorphological Resources Inventory and Appraisal in Watonwan County
The primary objective of this study was to expand the breadth of collective knowledge concerning the location and character of precontact and early postcontact archeological sites in Watonwan County. The investigations surveyed 4,326.78 acres and documented 16 previously unrecorded archaeological properties in the county.

Archaeological Survey of Wadena County
This survey reviewed the precontact and early contact archaeological resources of Wadena County, examined existing collections and known sites, and conducted a field survey within the county to document additional precontact and early contact sites. The survey recorded three Paleoindian sites in Wadena County when previously there were none. Additionally, it added one Archaic site, four Initial Woodland sites, ten Terminal Woodland sites, three undifferentiated Woodland sites, three Sandy Lake sites, and 18 precontact lithic scatters.

Archaeologists also carried out a small-scale excavation on a site where a previous survey revealed a large number of sherds from a Brainerd Net-impressed pottery vessel within a charcoal-rich burn feature. This excavation obtained datable samples of charcoal in direct association with the pottery sherds, which will help to refine the chronology of this particular ceramic type.

Radiocarbon Project
Previous work done by Legacy projects suggested that there are problems with radiocarbon dates from archaeological sites in Minnesota. The study involved radiocarbon dating on both modern samples and archaeological samples. The study suggests that the uptake of dissolved carbon by plants and animals from aquatic environments in Minnesota’s natural landscape can skew radiocarbon dates, making them appear older than they really are.
The Minnesota Digital Library (MDL) is a statewide, multi-institutional collaboration that supports discovery, education, and personal enrichment through digitization of and access to the rich historical resources of the state’s public and academic libraries, archives, museums, and historical societies while also preserving these resources for future generations.

MDL partnered with:

- 187 organizations through Minnesota Reflections, a premier searchable, online collection of primary source materials of more than 52,000 photos, maps, journals, letters, works of art, and more

- In FY20, MDL will continue to digitize and make accessible material from across the state both on its own website, as well as through the website of the Digital Public Library of America

1950s concert posters from the Lakeside Ballroom in Glenwood, contributed to the Minnesota Digital Library by the Pope County Historical Society.

FY20-21 Appropriations Language—Minnesota Digital Library: $375,000 in fiscal year 2020 and $375,000 in fiscal year 2021 are for a digital library project to preserve, digitize, and share Minnesota images, documents, and historical materials. The Minnesota Historical Society must cooperate with the Minitex interlibrary loan system and must jointly share this appropriation for these purposes.
Additional Projects

The Grandy Union Church was built in the 1880s. It is located just north of Cambridge and is managed by the Isanti County Historical Society.

In 2019, the Minnesota Legislature appropriated Legacy funding for these additional projects in the FY2020-2021 biennium. The appropriation language reads:

$200,000 the first year is for a grant to the Minnesota Military Museum to create and conduct a statewide story-sharing program to honor the distinct service of post-9/11 veterans in anticipation of the 2021 anniversary.

$115,000 the first year is for a grant to the Minnesota Military Museum to care for, catalog, and display the recently acquired collection of the personal and professional effects belonging to General John W. Vessey, Minnesota’s most decorated veteran.

$40,000 the first year is for a grant to the Isanti County Historical Society to relocate, update, and preserve the Moody School and the Grandy Union Church.

$150,000 the first year is for a grant to the commissioner of natural resources to maintain the history of the Grindstone River Dam at Hinckley.
