    <description.block>
      <description>Existing law, until January 1, 2005, applies color-lighted bicycle symbols shown by official
      traffic control signals to operators of bicycles. Existing law authorizes those bicycle signals to be used only at
      locations that meet specified standards adopted by the Department of Transportation. This bill would extend those
      provisions indefinitely. Because this bill would expand the scope of an existing crime, the bill would impose a
      state-mandated local program.The California Constitution requires the state to reimburse local agencies and school
      districts for certain costs mandated by the state. Statutory provisions establish procedures for making that
      reimbursement. This bill would provide that no reimbursement is required by this act for a specified reason.This
      bill would declare that it is to take effect immediately as an urgency statute.</description>
