

## Worksheet: Research Tracking

**Task:** Use this worksheet at the start of the project, as you look for lots of sources about your topic. As you go, keep a record of each source that you find. One that might not seem useful at first could help you later in your project. This record will help you keep track of those useful sources so you can go back to them and will help you write your annotated bibliography.

<b>Title of Source</b> Include the url if it is an online source.	<b>Type</b> Primary or Secondary	<b>Where it Might Help</b> Background, Build-Up, Main Event, Short-Term Impact or Long-Term Impact	<b>Short Summary</b> What kind of source is it (book, web article, map, newspaper, etc.)? What people, places, ideas, or events does it cover?
