LISTEN — Head into the mine and notice the sounds.
What sounds do you hear?
What dangers do these sounds remind you of?

Think about working in a mine like this one all day, five or six days a week. Would you have liked this work? Why or why not?

DO — Find the bison puzzle, near the sod house. Take the puzzle apart. How was the bison like a grocery store and a hardware store for the Dakota people?

Now bring one of the bison parts to the electronic scanning system, on the wall nearby. Scan the tag. Which bison part do you have? How was it used by the Dakota?

Scan a couple of other parts. Which part do you think was the most important for the Dakota people’s survival? Why?
**DRAW — Enter the sod house** in the corner of the gallery. What do you notice about the walls on the inside of the sod house?

Why do you think people like Ole and Gro Rollag put these items on the walls of their sod house?

What if you had to move to Minnesota’s prairie in 1870? What would you bring with you? What would you put on the walls of your house? Draw the inside of your sod house below:

What about the television is still the same?

Two rivers come together at Bdote. One river has the same name as our state. What is the other river called on the map?

What about this place is important to you?

What were the Ojibwe people looking for as they headed west?

In 1679, the Dakota and Ojibwe met near what is now Duluth. What did they talk about?

How long ago was their meeting? Do the math!

\[
\begin{align*}
